DAY ONE
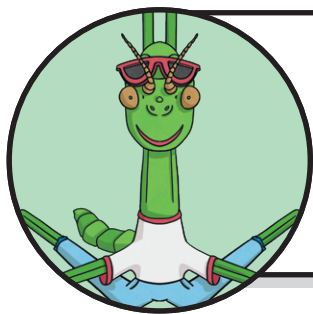

Write an inverse calculation to check the answers to the calculations below.

35 + 65 = 100   63 − 47 = 16   101 + 29 = 130

SOLVE MISSING NUMBER PROBLEMS

Use the inverse to help find the missing numbers in the calculations. The first one has been done for you.

225 + ☐ = 395

missing number =

520 − ☐ = 390

missing number =

To find the missing part, subtract the other part from the whole.

To find the missing whole, add the 2 parts together.

☐ − 250 = 500

missing number =

☐ − 110 = 605

missing number =
