News of the Week....

In the news this week

8th June is World Oceans Day, a time when people around the world think about how to care for seas, oceans and the creatures living in them. Dutch inventor, Boyan Slat, first became worried about ocean pollution as a teenager after seeing huge amounts of plastic while diving. He created the organisation The Ocean Cleanup, which designs special systems to remove rubbish from oceans and stop more plastic entering rivers and seas.

Things to talk about at home ...

- Why do you think oceans are important to people and animals?
- Have you ever seen pollution near a beach, river or park? How did it make you feel?
- What small changes could families make to help protect the oceans?
- Should countries work together more to protect the environment?

Year 5 Residential

Year 5 had an amazing couple of days in Wales on their residential. The sun shone for most of the time and the children showed so much positivity, team work and resilience. We are all so proud of our children. A massive thank you to all the teachers who supported and cared for the children over the past couple of days. These trips could not take place without our dedicated staff.

Our ROCK values are Respect, Ownership, Caring and Kindness

Drop off and Pick Up

Can we please remind all parents and carers that all children must not be left unattended at school drop off or at home time. Children in Years 5 and 6 who walk to school independently and with consent from families are allowed to wait without parent support. However it has come to our attention again that younger children are being dropped off at the car park and left to walk into the school playground. This is a huge safeguarding concern. Please speak to school if you have any issues.
