

Tilston Parochial
CE Primary Academy

Enrichment- 2026-2027
Collaboration- NWAT, Broxton Federation Group & BREIP

Roles	Overview
NWAT & Local Collaboration	Tilston works collaboratively across North West Academies Trust and with local schools to strengthen provision for pupils and staff. EYFS staff access NWAT EYFS meetings to share good practice, curriculum development and approaches to supporting young children. The school also benefits from Trust-wide expertise and collaboration through SENDCO, wellbeing, safeguarding, health and safety, people management and business support networks.
NWAT Curriculum & Professional Networks	Staff contribute to Trust collaboration groups including Year 2 Writing, SENDCO, PE Lead, wellbeing and safeguarding networks. These opportunities support moderation, consistency, professional development and the sharing of effective practice across schools. Tilston also works with the Broxton Federation Group through half-termly headteacher briefings and business manager/bursar meetings, providing local professional support and opportunities to share practice.
Local School & Community Partnerships	Through BREIP, Tilston works closely with local primary headteachers and Bishop Heber High School. Half-termly meetings support joint planning and strong links between local schools. Collaborative opportunities for pupils include sports partnership events, the annual Art Celebration Evening and Science Fair. These partnerships broaden pupils' experiences and provide opportunities to learn, compete, perform and celebrate alongside children from other schools.

Transition, Trust & Leadership Collaboration	Older pupils particularly benefit from strong collaboration between Tilston and Bishop Heber High School. Year 6 and Year 7 teachers work together to support effective transition, share relevant information and help pupils prepare confidently for secondary school. Across the school, leaders and staff also benefit from NWAT Headteacher meetings, Year 6 Writing collaboration, safeguarding supervision, SENDCO and PE Lead networks, Health & Safety support, People Management support for staff wellbeing, and business manager/bursar support. NWAT counselling provision provides additional support for both pupils and staff.
