Geography Knowledge Organiser	Exploring Levenshulme	Year 4 – Autumn 2

Key Vocabulary

City – A
Symbol – A
Key – A
Grid Reference - A
Directions – A
Human - A
Physical – A

What we will learn

- Know the name and location of our local area (levenshulme) within the city that we live in (Manchester)
- Know how to draw a map of a place in our local area with symbols and a key
- Know how grid references can be used to locate places on a map of our local area
- Know the eight compass directions (N, NE, E, SE, S, SW, W, NW) and how to use directional language
- Know how to plan a simple route between two places in our local area, using a map, grid references and compass directions
- Know human and physical features and different types of land use within our local area

Key Knowledge (including facts)

- The Earth can be split into six major climate zones. The polar zone has the lowest temperatures while the arid zone has the highest temperatures and very low rainfall. The tropical zone also has high temperatures but it experiences high rainfall too. The UK lies in the temperate zone which has a mild climate and moderate rainfall.

Extra things you might do

Make a 3D model of the Earth showing its lines of latitude and displaying the six major climate zones in different colours.
Join UNICEF's 'World's Largest Lesson' project for children or the Kids Climate Action Network and explore their resources on combating climate change.
