Art and Design Knowledge Organiser	2D Drawing to 3D Making	Year 6 - Autumn

Key Vocabulary

Grid method: drawing a grids allows the children to split the images down into manageable "chunks".

Negative space: is the background or the area that surrounds the subject of the work.

Scaling up: Increasing the size of the drawing but keeping it to scale and in proportion

Tint: a mixture of colour with white, which increase lightness.

Shade: a mixture of a colour with black, which reduces lightness.

A tone - produced either by the mixture of a colour with grey.

Hue - the term for the pure spectrum of colours - red, orange, yellow, blue, green violet - which appear in the hue-circle or rainbow.

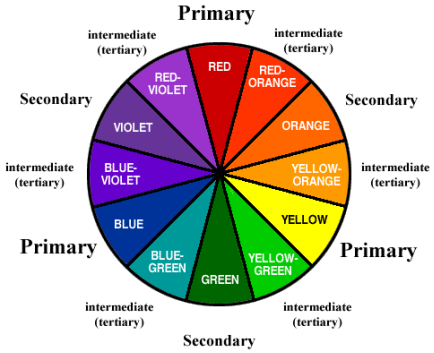

What we will learn

-Know that drawing and making have a close relationship.
-Know that drawing can be used to transform a two-dimensional surface, which can be manipulated to make a three-dimensional object.
-Explore the artist Lubaina Himid who use her drawing skills to make objects, and share responses to their work, thinking about their intention and outcome.
-Understand that there are technical processes we can use to help us see, draw and scale up our work
-Use the grid system to scale up an image, transferring the image onto card.
-Use collage to add tonal marks to the "flat image".
-Explore using negative and positive space to "see" and draw a simple element/object.
-Explore using line, mark making, tonal values, colour, shape and composition to make my work interesting.
-Transform my drawing into a three-dimensional object.
