Things that you can do to help your child with their maths:

In Year 6, we will be continuing to look at Fractions, decimals and percentages, followed by Measurement: Area and Perimeter

Next half term, your child is welcome to come into school from 8:10am on Tuesdays,

Thursdays and Fridays for morning booster sessions.

It is vital that your child practises their times tables regularly at home.

To help your child with this, encourage them to use TT Rockstars regularly.

Your child can also use their IXL account to practise different areas of maths.

This half term:

During science, your child will be exploring light.

During history, we will be learning about Ancient Greek civilisation.

In RE, we will be looking at 'The Resurrection'.

Things that you might like to do at home to support your child's learning:

- Practise their spellings with them.
- Help your child to use a dictionary to find the correct spelling of words they're unsure of.
- Visit the DK find Out website to find out about Ancient Greeks:

https://www.dkfindout.com/uk/history/ancient-greece/

• Encourage your child to stay active.

We love reading!

This half term we are reading Percy Jackson and the Lightning Thief by Rick Riordan.

Your child must bring their copy of Percy Jackson and the Lightning Thief and their reading journals into school every day, as we will be using them in lessons, as well as encouraging them to read it home.

Please ensure that your child is reading their accelerated reader book so they can quiz regularly. This can be done at home as well as in school.

Things that you can do to help your child with their writing:

- Remind your child to join their handwriting all of the time since this is a Year 6 requirement.
- Encourage your child to write a letter to our local MP about how we can take greater care of our local environment.
- Encourage your child to write their life story an autobiography.
- Write a short play about how modern living is impacting our world.
- Access some of the writing activities on Purple Mash.

If you have any queries or questions regarding how to support your child with their learning, please send us an email, or make an appointment to see us. Thank you for your cooperation.
