

Things that you can do to help your child with their maths:

At the beginning of this half-term we will be looking at Place Value, Addition and Subtraction and what they have learnt in Year 2.

Children should continue to practise their times tables (2's, 3's, 5's and 10's) as this is an important skill across all areas of mathematics. In year 3, we will also be learning our 4- and 8-times tables. Please practise these at home as much as possible.

In Literacy, we will be using the book 'Journey' by Aaron Becker to inspire our writing.

This half-term:

Our topic for History this half-term is the Stone Age!

During Science, your child will be working scientifically looking at rocks.

In RE, we will be looking at Hinduism and the festival of Diwali.

Things that you might like to do at home to support your child's learning:

- Why not go for a walk and spot the different types of rocks around you?
- Why not research about Stone Age food or what they did to relax?

If you have any queries or questions regarding how to support your child with their learning please send us an email at year3@wistastonacademytrust.co.uk Thank you for your cooperation.

We Love Reading!

In Year 3, we will continue to build our love of reading and will have a daily reading for pleasure session. This is a chance for the children to listen to a story.

We will also have daily individual reading. Please make sure your child brings their reading book to school every day.

Things that you might like to do at home to support your child's reading:

- Read with your child at least 4 times a week.
- Ask your child questions about books they are reading and who is their favourite author.

Things that you can do to help your child with their writing:

- Encourage your child to write on lines.
- Remind your child how to form the letters correctly and where to position them on the line. For example, the letter g hangs down below the line.
- Remind your child to use capital letters, full stops and other relevant punctuation.
