

Mrs Madden's Class News
Friday 26th June 2026

This week in EYFS, we did our very best to keep the children cool during the incredibly hot weather—what a scorcher it has been! Thankfully, with the help of my fan and Mrs Hampshire's fan, our classroom stayed at a comfortable temperature. Throughout each day, we built in regular "sit and sip" water breaks, along with frequent water bottle refills, to help everyone stay well hydrated. The children coped brilliantly with the heat and continued to enjoy all of their learning despite the soaring temperatures.

In Maths, we have been learning all about doubles. The children absolutely loved our *Doubles Rap* and have been enthusiastically joining in. I've added a link to it on Tapestry—perhaps they could perform it for you at home!

PE this week involved an athletics circuit, where the children had the chance to practise a range of skills, including the standing long jump. I was incredibly impressed with their enthusiasm, determination and the effort they all put in.

To help us stay cool, we also enjoyed plenty of water play throughout the week. On Friday, Mrs Hampshire brought out the hose and water sprayers, which created lots of laughter, excitement and welcome relief from the heat! The children had such a fantastic time that Miss Whittingham couldn't resist extending the fun by helping children from across the school cool down during the lunchtime break. It was a wonderful way to end a very warm week!

Have a lovely weekend, enjoy the sunshine, and we look forward to seeing everyone next week.

Mrs Madden 😊
