DIFFERENCES in MALE and FEMALES

We have many body parts that are similar.

Male and female private parts are different.

These different private parts are needed if people choose to have a baby when they are grown up.

MALE	FEMALE
The PENIS and TESTICLES are male private parts	The VULVA is the female private part and the VAGINA leads to the uterus

Personal Space and Warning Signs

P	Privates are private.
A	Always remember your body belongs to you.
N	No means NO.
T	Talk about secrets that upset you.
S	Speak up, someone can help you.
