

02/10/26

Friday 2nd October 2026

1 - Our values this half term are kindness and respect. In Praise Assembly we are celebrating 2 children from each class who are showcasing these values throughout the week.

Parent's Evening

As communicated to you in the year ahead, Parents' Evenings for the Autumn term will take place on Tuesday 20th and Thursday 22nd October. Please note that Year 2H will take place on Tuesday 20th and Wednesday 21st October.

Parents' Evening provides a valuable opportunity to meet with your child's class teacher, find out how your child has settled into school and learn how you can support their learning at home.

Appointments will be 10 minutes each and can be booked online via School Spider **from Monday 5th October at 9:30am**. You can access School Spider either through the School Spider app or via our school website by clicking Parent Login at the bottom of the homepage. Bookings will close on Friday 16th October.

If you experience any problems making a booking, please contact your child's class teacher who will be happy to help. We look forward to welcoming you into school.

Back to School: Health Checklist for Parents and Carers

✔ Check your child's vaccinations are up to date:

Vaccinations protect children from serious illnesses such as measles, whooping cough and meningitis. They also help protect family members who are more vulnerable and reduce the spread of infection within schools and the community.

Why it matters:

Measles is spreading in some communities. Having 2 doses of the MMR vaccine gives the best protection against measles, mumps and rubella.

How to check your child's vaccines are up to date:

You can check your child's Red Book (Personal Child Health Record), view vaccination records through the NHS App (where available), or contact your child's GP practice if you are unsure whether your child's vaccinations are up to date.

Useful Links:

For further information about childhood vaccinations, please see links below:

- www.nhs.uk/vaccinations/
- www.nhs.uk/vaccinations/mmr-vaccine/

✔ **Look out for your child's flu vaccination invitation:**

Flu can make children very unwell and may mean they miss school and other activities

The flu vaccine helps protect children from flu and can help stop it spreading to family and friends. Most children who can get the vaccine will be offered a quick nasal spray at school.

Why it matters:

The flu vaccine helps protect children, their families and people who may be vulnerable to serious illness.

What can you do:

Look out for the e-consent form from your child's school and return it so your child doesn't miss out.

Useful Links:

For further information about the child flu vaccine, please see links below:

- [Children's flu vaccine - NHS](#)

✔ **Refresh good hand hygiene habits:**

Washing hands regularly is one of the best ways to stop the spread of coughs, colds, flu and stomach bugs.

Why it matters:

Washing hands regularly helps stop children getting ill and helps them stay in school.

When should children wash their hands:

Encourage your child to wash their hands with soap and warm water for at least 20 seconds, especially before eating, after using the toilet, after playing outside, and after coughing or sneezing. This is one of the best ways to stop germs spreading.

Useful Links:

For further information about hand hygiene, please see links below:

- [Simple Things](#)
- [How to wash your hands - NHS](#)

✓ Teach 'Catch it, bin it, kill it':

Covering coughs and sneezes and washing hands afterwards helps stop infections spreading.

Teach your child to use a tissue when they cough or sneeze. If they do not have a tissue, they should cough or sneeze into their elbow. Always throw used tissues away and wash hands afterwards.

Why it matters:

Simple hygiene habits help reduce the spread of respiratory infections, including flu, COVID-19 and common colds.

Useful Links:

For further information about Catch it, Bin it, Kill it, please see links below:

- [Simple Things](#)

✓ Know when to keep your child at home:

Children do not need to stay off school because of every cough or cold. However, some illnesses require children to stay at home to reduce the risk of transmission to others.

Keep your child at home if they:

- Have a high temperature or fever
- Are unwell and unable to participate in normal activities
- Have diarrhoea and/or vomiting (stay away for at least 48 hours after symptoms stop)

Why it matters:

Keeping children at home when they have some infectious illnesses helps prevent outbreaks and protects other pupils, staff and the wider community.

Useful Links:

For further information about childhood infectious illnesses and when to keep your child off school, please see links below:

- [Is my child too ill for school? - NHS](#)

✔ **Be measles aware:**

Measles is a highly infectious illness that can spread quickly where people are in close contact. Vaccination remains the best protection.

Signs of measles

- High temperature
- Runny nose
- Cough
- Sore, red eyes
- A rash that usually starts on the face and spreads across the body

Why it matters

Measles can cause serious illness, especially in young children and vulnerable individuals. Two doses of MMR provide the best protection.

Parent Communication

Parent Communication

We've noticed an increase in emails to school that appear to have been written or supported by AI. There is absolutely no problem with families using technology to help them organise their thoughts or communicate clearly.

However, when a concern relates to something that has happened in school, we would always encourage parents and carers to seek to resolve it through a conversation first. In most cases, speaking directly with the member of staff involved is the quickest and most effective way to clarify what has happened and reach a positive resolution.

If you have already spoken with the relevant member of staff and feel that the matter remains unresolved, please contact the school office to arrange an appointment with Mrs Forrest. A face-to-face or telephone conversation is often much more helpful than a lengthy exchange of emails. It gives us the opportunity to listen carefully, understand the situation fully and work together to resolve concerns constructively.

If you feel that email correspondence is necessary, please ensure that any messages or documents prepared with the help of AI accurately reflect your own concerns, questions, or feedback and include the relevant context. AI can be helpful in organising thoughts and wording a message, but communication should remain personal and relevant to your child's individual experience.

Our staff will always respond to communications that are clear, respectful, and appropriate. When an email does not provide sufficient information or context for us to understand the concern fully, this will delay the response time.

We aim to reply to any email communication within 5 working days.

Thank you for helping us to maintain open, respectful and effective communication between home and school.

FRENCH CLUB AT OUGHTRINGTON

About the French Club

Les Copains is a French club that runs every Thursday after school. We introduce French in a fun way by exploring the language through games and activities. Sessions are designed using detailed lesson plans that are structured to stimulate children's natural enthusiasm for language. At Key Stage Two the focus shifts towards writing skills and grammar although the emphasis remains on learning in a fun and stimulating way.

The Les Copains formula has proved to be hugely popular with children of all ages and ability. It doesn't matter if your child has had no previous exposure to the French language, the programme is designed with a lot of repetition and children soon pick up the basics from the activities.

Our three stages approach to learning begins in pre-school at age 3. It's never too early to introduce a second language, in fact, research has shown the earlier the better.
