

Y1 Science: Animals including Humans

Key Scientific Vocabulary:

senses 	How your body learns about the world around you
skeleton 	bones inside the body
mammal 	Animals that breathe air
amphibians 	Amphibians live in water as babies and on land as they grow older.
reptiles 	All reptiles breathe air. They have scales on their skin.
fish 	Fish live and breathe under water. They breathe through gills.
carnivore 	Animals that mostly eat other animals (meat).
herbivore 	Animals that only eat plants.
omnivore 	Animals that eat both plants and other animals.

At the end of this topic I will be able to identify and name a variety of common animals. I will also be able to name and label parts of the human body.

Mammals

human

mouse

dog

cow

Birds

penguin

chicken

flamingo

robin

Fish

goldfish

tuna

shark

eel

Reptiles

snake

tortoise

lizard

alligator

Amphibians

frog

toad

newt

salamander

Jobs related to our science topic

gardener

tv presenter

zookeeper

Senses

sight

hearing

touch

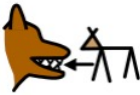

taste

smell
