

Y3/4 Homework Menu for Autumn Term

Maths Homework

Please complete the maths activity assigned by your teacher each week.

Wider Curriculum Homework (coloured homework book)

You can choose to do one of the activities at home from the homework menu linked to our topic (Britain from the Stone Age to the Iron Age). There are plenty of suggestions, but you may be able to think of your own ideas! We would love to see some wider curriculum homework coming into school once every 2 weeks.

1- Find out about an animal that was around in Britain during the Stone Age. Are any of them still around today? How did people catch and use them? Present your information in a poster.	2- Research Creswell Crags and design a tourist information leaflet about one feature that is found there.	3- Write a diary imagining you are a child in the Stone Age. What happened to you that day? What did you see? What did you do? What did you smell? What did you eat?	4- Write an acrostic poem using the words STONE AGE.
5- Find out about some Stone Age tools. Draw one of them and describe what it is used for and what it is made from.	6- Design a poster to teach the numbers 1-10 in French.	7- Create paint using natural materials (e.g. berries, grass, leaves) and use it to create a Stone Age picture.	

Don't forget you can also upload your homework to SeeSaw. Your teacher will have given you your log in.

Maths Homework must be handed in on a Wednesday. Homework club will take place on Thursday lunchtime for children who have not completed homework by the hand in day.
