System Details

The CCTV system consists of a number of overt colour CCTV cameras situated around the school site, which continuously record activities in that area during site opening hours and are activated thereafter.

Access to Information

The Freedom of Information Act 2000 and the UK Data Protection Act with GDPR 2018 will be adhered to. Any request for disclosure of information must be made to the Data Protection Controller.

Requests for information by the Police and other authorities must also be made through the Data Protection Controller.

Individuals who request images will be issued a request form (appendix 1). Upon receipt the School's Data Controller will determine if the request is appropriate and whether there is a duty of care to protect third parties. If the duty of care cannot be discharged, then the request can be refused. A written response will be made to the individual giving the decision (and if the request is refused giving reasons) within 30 days of receipt of enquiry. The Data Protection Controller may seek advice from the appropriate Data Protection Officer to make this decision.

Complaints

Any use of the CCTV system or materials produced which is outside the policy and is inconsistent with the objectives of the system will be considered gross misconduct.

Misuse of the system will not be tolerated; continuing public support is vital. Any person found operating outside these codes without good and reasonable cause would be dealt with under the schools disciplinary system. If any breach constitutes an offence under criminal or civil law then court proceedings may be taken.

Any complaint concerning misuse of the system will be treated seriously and investigated by the Governing Body. They will ensure that every complaint is acknowledged in writing within seven working days, which will include advice to the complainant of the enquiry procedure to be undertaken.
