Promoting and rewarding positive behaviour

House point system - Dojos

Every child is awarded a dojo when they show they are ready to learn, keeping safe or being kind. When a child reaches 50 dojos, they will be able to choose a prize from the class prize box.

If a child is not showing expected behaviour they will be asked to complete a restorative conversation about their behaviour with the class teacher for low level disruptions. For medium level, the behaviour lead will conduct the restorative conversation and the child may lose part of a break or lunchtime. For high level behaviour the child will be removed from the class and SLT will conduct the restorative conversation.

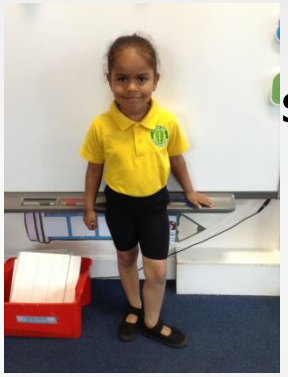

Good to be Gold system

All children will received 30 minutes of good to be gold on a Friday afternoon. This may be shorter if a child has unfinished restorative conversations from the week.

Screen Time — Finding the Right Balance

📱 **Screens are part of childhood — but balance matters**

For children aged 5–11, research suggests that too much or poorly timed screen use can:

- 😴 **Affect sleep** — particularly when screens are used close to bedtime.
- 🏃 **Reduce physical activity** — when screen time replaces active play, outdoor time and exercise.
- 🧠 **Impact learning & development** — especially when screens crowd out reading, creative play, conversation and hands-on experiences.
- 💭 **Affect emotional wellbeing** — some research links higher levels of screen use with poorer wellbeing and emotional/behavioural difficulties, although the relationship is complex and varies between children.
- 👨‍👩‍👧 **Reduce family connection** — screens can interrupt conversations, shared meals and quality time together.

What matters most?

> **It's not simply "How many hours?" — ask "What is the screen replacing?"**

👍 Helpful habits at home

Protect sleep

No screens for **at least 1 hour before bedtime** and, where possible, keep devices out of bedrooms.

Make time for movement

Aim for **at least 60 minutes of physical activity each day**.

Create screen-free spaces & times

For example: **mealtimes, bedrooms and family conversations**.

Choose quality over quantity

Look at **what children are watching/playing, who they are interacting with and whether it is age-appropriate**. Co-viewing and talking about content can make screen use more positive.

Be a role model

Children learn from the digital habits they see around them too.

Key message for parents:

🌱 ***Screens can be part of a healthy childhood — as long as they don't crowd out sleep, movement, play, learning and relationships.***
