

Community Arts Day

We love our Community Saturdays.

The children have a great time creating so many exciting things with their families and friends. It gives us an opportunity to talk to the members of our school and Parish communities while having a go at a variety of different crafts.

Families are also able to discuss our Mission Statement, Equalities and RSE and ask questions about resources. It has also provided an opportunity for families to explore the RE Directory and ask about the new RE curriculum that all of the children really enjoy.
