

Adult Guidance -ing Bingo

Cut out the sentence cards below. Choose one at random and read it out so that children can cross off the missing words if they have them on their grid. Stick the sentences you have used onto the board to refer to later.

This activity can be simplified by asking the children to choose fewer words. Alternatively, additional words with more complex spelling patterns can be added to the game to provide greater challenge if required, e.g. laughing, rolling etc.
