

When the world
was separated,
we stayed
connected

Year 3

Seeds of Hope

 **A Pot of Hope** 

Seed of Hope

Plant a seed of hope in your heart
Hope to make it through the night
When thoughts of fear and sorrow
Capture your mind and steal your peace
Be like a good farmer with faith
Knowing that the dry days will pass
And the soil will be watered
Once more you'll make a harvest
And your baskets shall over flow
With joy and laughter

©Sonia Ettyang 

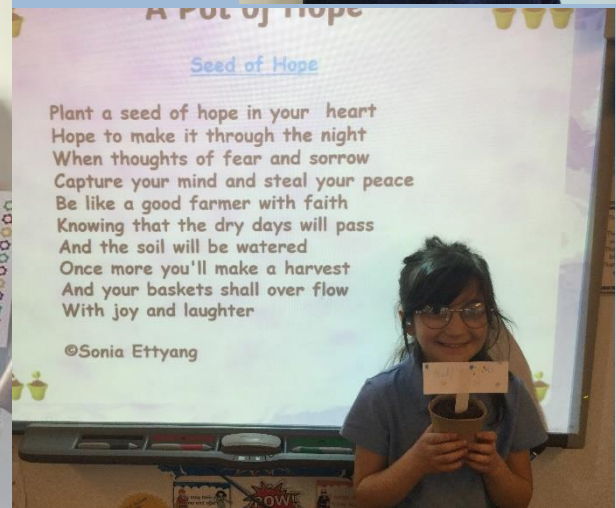

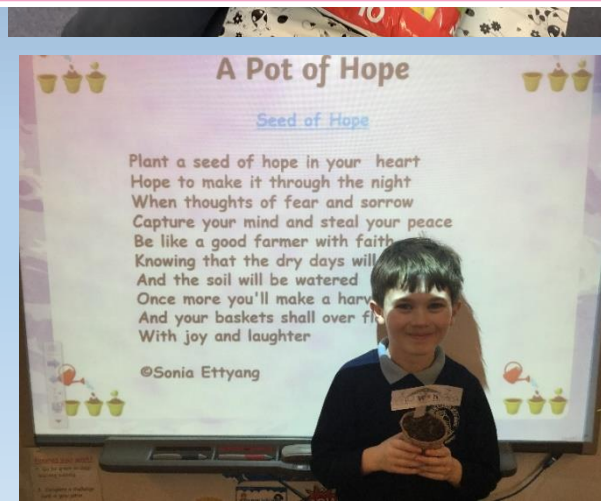

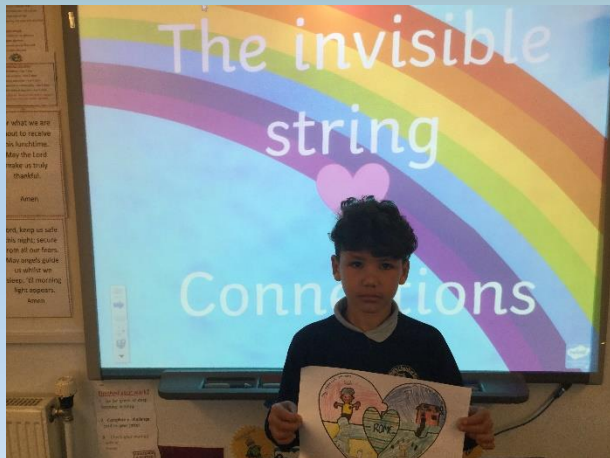

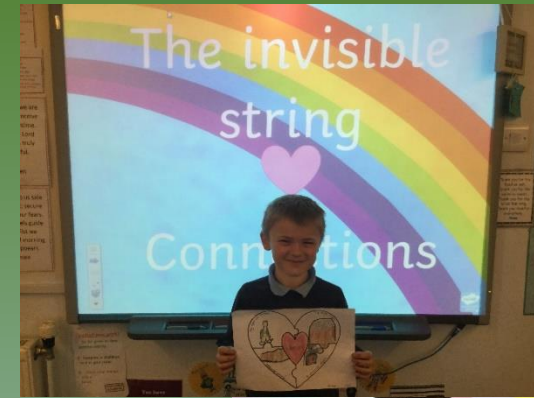

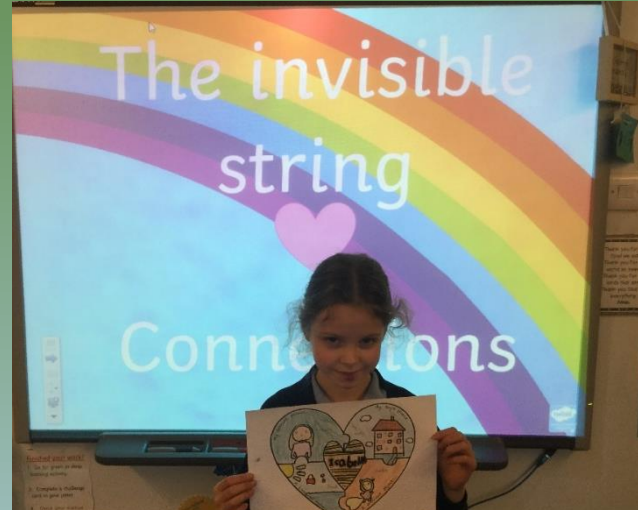

'Once you choose hope, anything's possible.'

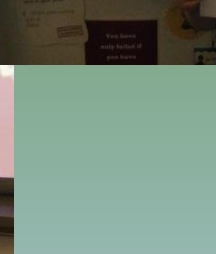

'Hope is being able to see that there is light despite all of the darkness.'

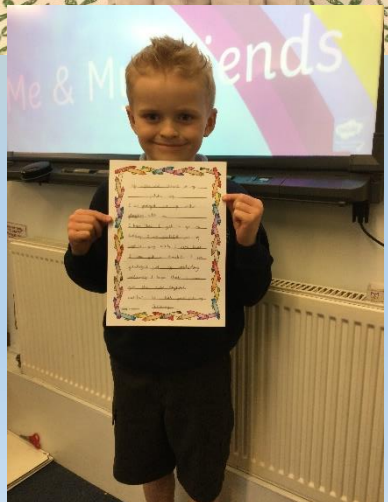

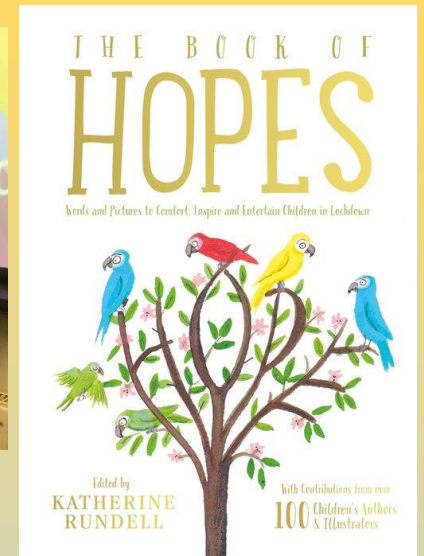

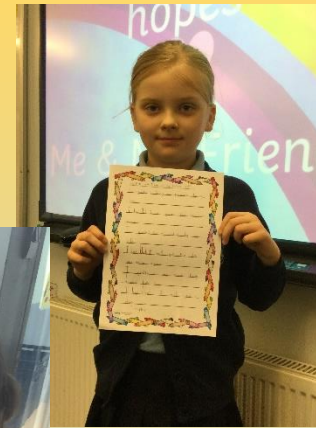

Invisible of String of Love

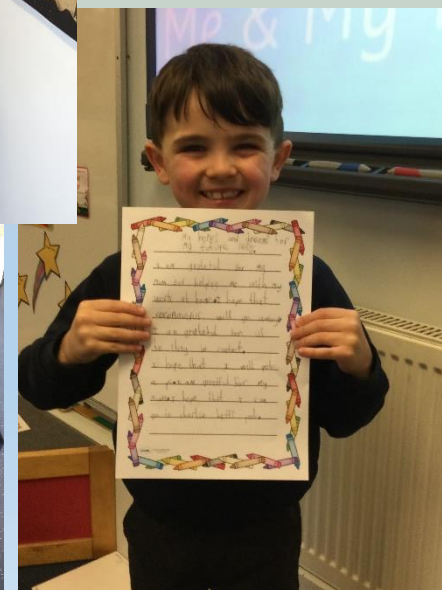

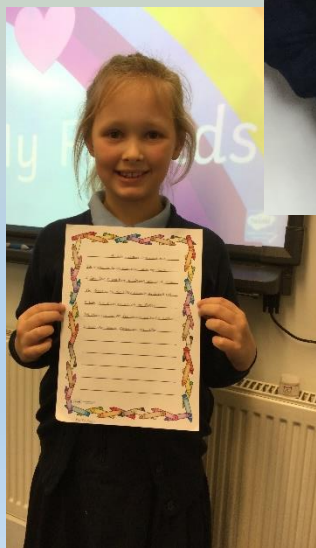

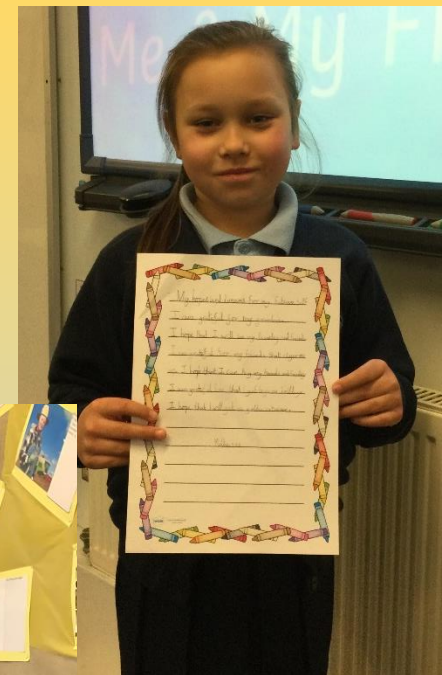

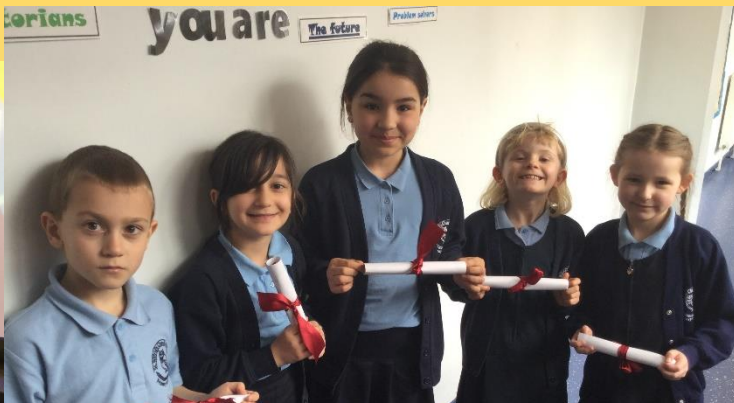

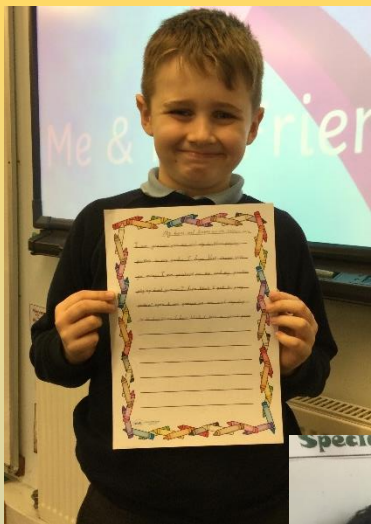

Over the past 12 months the connections that we have with people in our family, our friends and our teachers have not been the same due to the pandemic. You might have missed people that you care about and found it difficult not seeing your friends and teachers. It's lovely that we are now all back together and slowly we are able to reconnect with people we care about.

Hopes and Dreams for our future self

We made a time capsule of “hopes” that will travel with us to Year 4. I wonder if our “hopes” will become reality?

Staying connected

Connections are like pieces of a jigsaw that all link together.

Spreading love and hope to others...

We made Scandinavian woven hearts to give to someone special. The heart is a symbol of love and hope for the future.

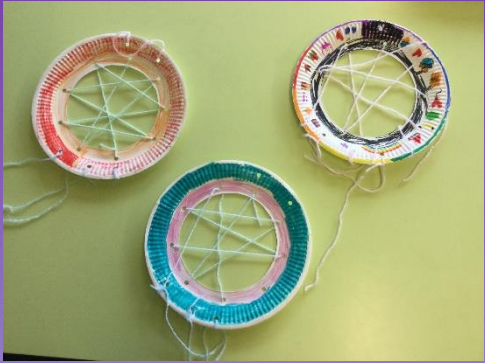

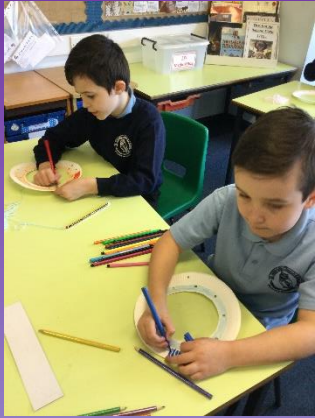

Catching dreams...

Making Dreamcatchers! The hoop symbolises strength and the circular shape symbolises having no beginning or end. The beads are believed to catch our bad dreams, which disappear when the sun shines on them.

All the buttons on our display are unique just like us and the things that they represent.
