

Year 1 - Summer Term 2: Holidays- Home and Away

Key threads: Comparing and Contrasting UK with a Non- European Country PSHE Link: Empowerment

Key Vocabulary:

ocean	A very large area of sea.
continent	A very large area of land that includes lots of countries and some islands.
compass	A piece of equipment that tells you the location of places/objects- North (N), East (E), South (S) and West (W).
climate	The usual weather conditions of the area.
Caribbean	A group of islands in the Atlantic ocean.

Map of the World

I already know...

I can already know about some different places in the world that Christopher Columbus visited on his voyages (Topic -Autumn Term 1 and 2)

I already know about seasonal weather patterns in the UK (Science Spring 1)

I will know how to...

- Name the seven continents and five oceans and identify them using aerial maps and globes
- Use simple compass directions (North, South, East, West) to describe the location of continents and oceans on a map.
- Explore geographical similarities and differences between the UK and the Caribbean
- Explain seasonal weather pattern differences between the UK and Caribbean

Key Questions

Can I name the seven continents and five oceans?

Can I use simple compass directions to explain where continents and oceans are on a map?

Can I locate hot and warm climates in the world?

Can I compare the UK to the Caribbean and find similarities and differences?

Can I explain the weather differences between the Caribbean and the UK?
