

Work set for Tuesday 6th January, 2026

Happy New Year to my lovely class! As we are unable to open school today, I have set you some tasks to complete.

Maths

Doodle Maths:

- Y6 task - using common factors and multiples to work with fractions (revision from last term)
- Y5 task - percentages (revision from Y5, ready for our next learning focus)
- Y5 task - Roman Numerals (revision from Y4 and Y5 - these do not appear in the Y6 curriculum, but it is important you remember this)

Remember, the Corbett Maths videos are really useful if you get stuck. You can find them on our web page

A minimum of 10 minutes on Doodle Tables please

English

Reading

- Reading Comprehension CGP book Set B Test 6 (if this is a text with questions - I haven't got a copy to check. If, and only if, it is a puzzle to conclude Set B, please do Set C Test 1)
- Your daily reading x 20 minutes minimum

Rollama

- Multiple missing punctuation marks
- Active and passive voice

Final task:

If you can, enjoy the snow! We don't get it very often so get outside and have a play. It will link brilliantly to your next English unit too, as you will be writing about a foreboding mountain in the depths of winter.

If you get stuck and they are able, your parents can drop me a message on Seesaw and I'll do my best to help.
