Dear Sir/Madam

Proposed Traffic Regulation Orders – Convent Walk Area.

The City Council is considering introducing the following restrictions on Convent Walk, Convent Place, Victoria Street, and Bolton Street:

Convent Walk

A restricted parking zone (no waiting at any time) and no waiting at any time double yellow line restrictions on different parts of Convent Walk to prevent obstructive parking and improve access and safety for pedestrians whilst still maintaining access for off-street parking places and services.

A prohibition of vehicles restriction is proposed on part of Convent Walk to prevent access by vehicles on a designated footway and improve access and safety for pedestrians.

Convent Place

No waiting at any time double yellow line restrictions are proposed on Convent Place to prevent obstructive parking and improve access.

Victoria Street

Proposed paid-for parking places 08:00 to 20:30 and removal of no waiting at any time double yellow line restriction to provide alternative parking opportunities in the area. No waiting at any time double yellow line restrictions are also proposed and removal of existing no waiting 8:00 to 20:30 where vehicles parking outside these times causes issues with accessibility on the road and footway.

Bolton Street

No waiting at any time double yellow line restrictions are proposed and removal of existing no waiting 8:00 to 20:30 where vehicles parking outside these times causes issues with accessibility on the road and footway.

To enable these restrictions to be introduced it is necessary to make a Traffic Regulation Order. As part of this process, we give local residents and the general public opportunity to comment and/or object to what we are proposing.

Full details of this Order can be found on <https://consultation.appyway.com/sheffield> or by using the QR code between 24th September and 22nd October 2026.

Please have a look at the documents. If you wish to formally object to what is being proposed then, to comply with the provisions of the Road Traffic Regulation Act 1984, please send these through the <https://consultation.appyway.com/sheffield> website or write, giving the grounds for your objection, by the 22nd October 2026. The website consultation will be live from 24th September 2026. The consultation website only shows what is proposed if you would like to view existing restrictions please visit: <https://streets.appyway.com/sheffield>. The funding for this scheme only covers the proposed works that are advertised in the Traffic Regulation Order. Any requests for additional implementation of works in the area are unable to be completed under this scheme and will not be considered within this consultation.

We would also like to hear from people who support the proposals.

If objections are received, these will be considered by the Assistant Director, City Transport under delegated authority. Where objections are considered to be relevant and or significant, the matter may be referred to the Transport, Regeneration and Climate Policy Committee for decision. If you make comment or object, you are giving your consent for the council to process your personal information. This information will only be used in relation to this scheme and will not be shared with anyone without your express permission.

If you have any questions about the proposals or the Traffic Regulation Order process, please contact orders@sheffield.gov.uk.

Yours faithfully,

Alasdair McNeil
