

Moss Park Key Knowledge

- We can find out about the Bronze and Iron Ages by **interpreting** archaeological **remains**.
- Burials like the Amesbury Archer are very useful for finding out how people lived and what they thought was important.
- Hill forts like Maiden Castle were built in the Iron Age. They were built for defence and also served as places for different **tribes** to meet and trade.
- Bronze was better than using stone because it was easier to shape, was stronger and could be used again.
- Iron was better than bronze because it was more common, lighter and harder and led to the improvements in farming with the use of iron tools.
- People began to use horses for transport in the Bronze Age..
- The developments in use of materials in this period impacted on many areas, including agriculture, crafts and weapons.

5 words to remember

- hoard:** a store of money or valuable objects kept somewhere secret
- impressive:** to have a strong impact, usually positive
- interpretation:** a description or explanation of something in the past based on sources of evidence
- remains:** something left over from the past
- tribe:** a group of people who are of the same kind

The Age was most **impressive** because
