

Subject Leader Portfolio

Spanish

Mrs Bell

Why I love my subject:

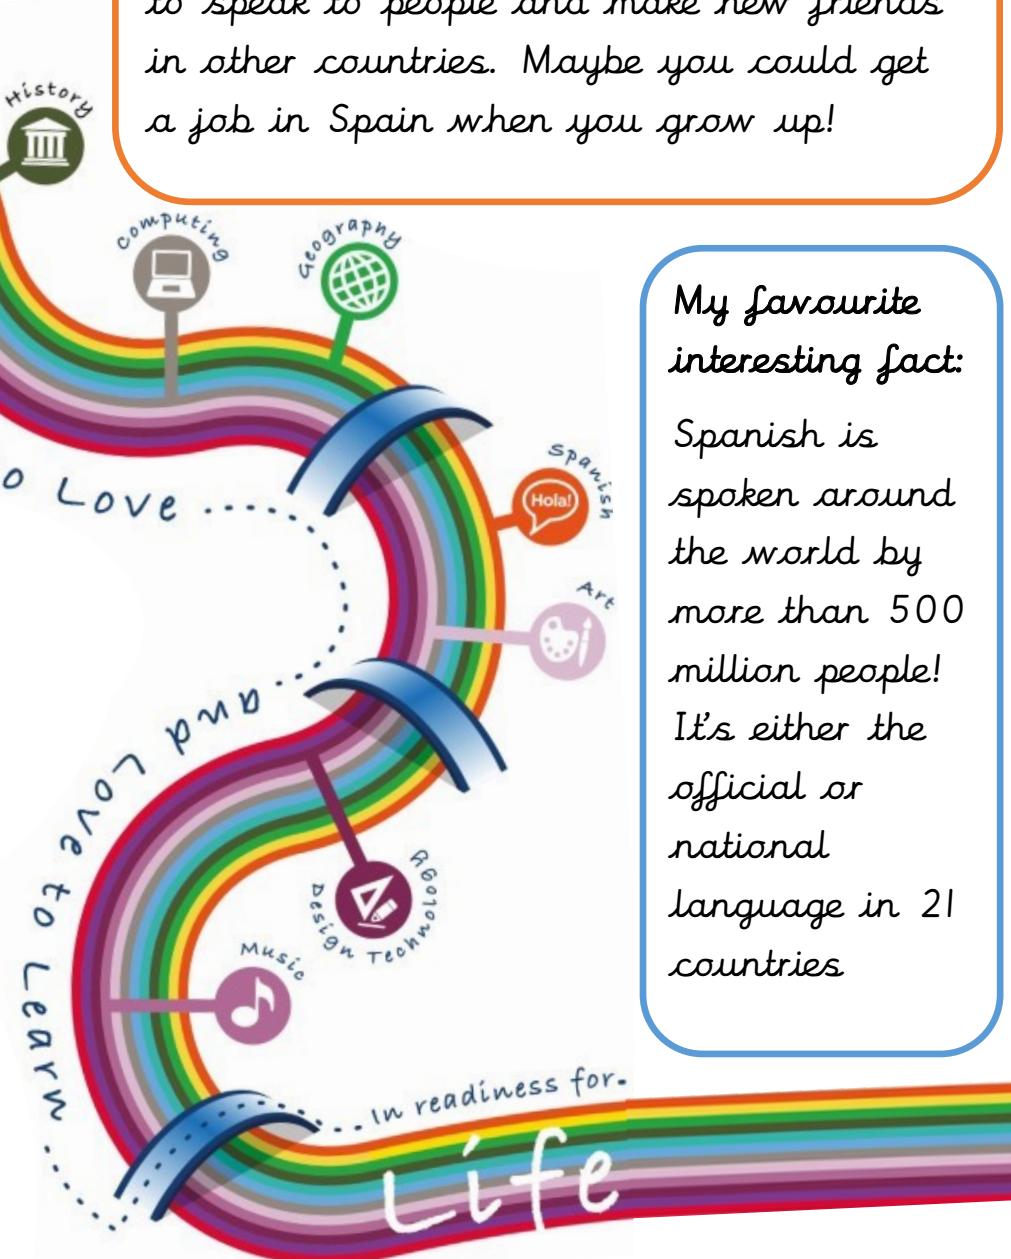

I think it is important for everyone to try and learn a new language. It allows you to speak to people and make new friends in other countries. Maybe you could get a job in Spain when you grow up!

My favourite interesting fact:

Spanish is spoken around the world by more than 500 million people! It's either the official or national language in 21 countries

My subject gets us ready for life by:

All of our children will learn foreign language in their high schools. Both of our main feeder schools teach Spanish, but learning one language makes it easier to learn another.

What will you learn in my subject?

Our Spanish learning is split into two main topics. The first is all about ourselves, our families and our school. You will learn to say personal information about yourself and hold a basic conversation.

In the second topic, we will learn language and phrases that could help us if we go to Spain, such as ordering food and asking for directions.
