

Fractions

Change the pairs of fractions into their equivalent fractions with common denominators.

Q1

$$\begin{array}{c} \boxed{\frac{2}{3}} \\ \downarrow \\ \boxed{\frac{}{12}} \end{array} = \begin{array}{c} \boxed{\frac{3}{4}} \\ \downarrow \\ \boxed{\frac{}{12}} \end{array}$$

Once the fractions are complete,
click the largest.

Q2

$$\begin{array}{c} \boxed{\frac{3}{4}} \\ \downarrow \\ \boxed{\frac{}{8}} \end{array} = \begin{array}{c} \boxed{\frac{1}{2}} \\ \downarrow \\ \boxed{\frac{}{8}} \end{array}$$

Once the fractions are complete,
click the largest.

Q3

$$\begin{array}{c} \boxed{\frac{1}{2}} \\ \downarrow \\ \boxed{\frac{}{6}} \end{array} = \begin{array}{c} \boxed{\frac{2}{3}} \\ \downarrow \\ \boxed{\frac{}{6}} \end{array}$$

Once the fractions are complete,
click the largest.

Q4

$$\begin{array}{c} \boxed{\frac{2}{5}} \\ \downarrow \\ \boxed{\frac{}{10}} \end{array} = \begin{array}{c} \boxed{\frac{1}{2}} \\ \downarrow \\ \boxed{\frac{}{10}} \end{array}$$

Once the fractions are complete,
click the largest.

Q5

$$\begin{array}{c} \boxed{\frac{1}{3}} \\ \downarrow \\ \boxed{\frac{}{6}} \end{array} = \begin{array}{c} \boxed{\frac{1}{2}} \\ \downarrow \\ \boxed{\frac{}{6}} \end{array}$$

Once the fractions are complete,
click the largest.

Q6

$$\begin{array}{c} \boxed{\frac{2}{3}} \\ \downarrow \\ \boxed{\frac{}{12}} \end{array} = \begin{array}{c} \boxed{\frac{1}{2}} \\ \downarrow \\ \boxed{\frac{}{12}} \end{array}$$

Once the fractions are complete,
click the largest.

Fractions

Change the pairs of fractions into their equivalent fractions with common denominators.

Q7

$$\begin{array}{c} \boxed{\frac{1}{3}} \\ \downarrow \\ \boxed{\frac{\quad}{12}} \end{array} = \begin{array}{c} \boxed{\frac{1}{4}} \\ \downarrow \\ \boxed{\frac{\quad}{12}} \end{array}$$

Once the fractions are complete,
click the largest.

Q8

$$\begin{array}{c} \boxed{\frac{3}{5}} \\ \downarrow \\ \boxed{\frac{\quad}{15}} \end{array} = \begin{array}{c} \boxed{\frac{2}{3}} \\ \downarrow \\ \boxed{\frac{\quad}{15}} \end{array}$$

Once the fractions are complete,
click the largest.

Q9

$$\begin{array}{c} \boxed{\frac{4}{5}} \\ \downarrow \\ \boxed{\frac{\quad}{20}} \end{array} = \begin{array}{c} \boxed{\frac{3}{4}} \\ \downarrow \\ \boxed{\frac{\quad}{20}} \end{array}$$

Once the fractions are complete,
click the largest.

Q10

$$\begin{array}{c} \boxed{\frac{3}{4}} \\ \downarrow \\ \boxed{\frac{\quad}{12}} \end{array} = \begin{array}{c} \boxed{\frac{5}{6}} \\ \downarrow \\ \boxed{\frac{\quad}{12}} \end{array}$$

Once the fractions are complete,
click the largest.

Q11

$$\begin{array}{c} \boxed{\frac{1}{6}} \\ \downarrow \\ \boxed{\frac{\quad}{12}} \end{array} = \begin{array}{c} \boxed{\frac{1}{4}} \\ \downarrow \\ \boxed{\frac{\quad}{12}} \end{array}$$

Once the fractions are complete,
click the largest.

Q12

$$\begin{array}{c} \boxed{\frac{3}{4}} \\ \downarrow \\ \boxed{\frac{\quad}{20}} \end{array} = \begin{array}{c} \boxed{\frac{7}{10}} \\ \downarrow \\ \boxed{\frac{\quad}{20}} \end{array}$$

Once the fractions are complete,
click the largest.
