

Reception – Autumn 2 Homework Grid

Colour in the square when you have finished the task – You can upload pictures to 'tapestry' once this is set up in school to show your teachers everything you have been up to!

Reading books are not far away now for our Reception children. These will start with small book with 1 word per page to help them practise their new phonemes (sounds) they have learnt in class.

Act of kindness – Our children are looking at all the things that make us special. We would like you to think of one kind thing you can do for someone you love and then do it. Imagine how happy you will make that person feel by doing something nice for them.

It's getting to that time of year where it is getting colder and colder outside. So, it is time we all learnt how to zip and button up our coats. Take some pictures and send them in for our self help display wall.

Read write Inc weekly homework. Children will begin to get videos and phonics games to help them at home on QR codes for them to access on mobile phones/tablets or laptops.

Numbers to 5 – Go for a walk in nature, at a park or in a garden and find 1,2,3,4 and 5 things that are the same. Take a picture and send into class for our Maths display board. This could be things like, 2 sticks, 4 leaves, 1 flower, 3 conkers etc

On the build up to Christmas make sure you write your letter to Santa. Don't forget to practise and write your name though so Santa knows who the letter is from!
