- Reward good behaviour

In what areas do you think the school needs to improve?

- Communication (a lot of things on spider are posted on the day or a few days prior to events)
- Support with SEN, listening to parents, communication needs to be better, appointments to see teachers need to be done a lot quicker, at the end of the days a little curioseusey with certain members of staff needs to be better
- I would love to be able to drop them to breakfast club a bit earlier, but this is circumstantial
- Teaching children about private parts
- Parent home communication don't feel I'm informed enough of what happens. Been informed my son is hands on at school with others and parents have been complaining about this but it's the first I've ever been told.
- Believing how brill they are.
- Nipping bullying as it starts as there has been quite a few incidents of bullying that seem to continue.
- Behaviour still a problem in my daughters class, resulting in her sometimes not wanting to go in saying 'what's the point I can't learn anything' - I know this is being tackled again atm after speaking to teacher but my concern is that my child will be demoralised with it all.
- They should definitely provide more learning-related activities and support for children who need extra help, encourage students to read more books, offer more sports activities, and organize more discussions about how to deal with different situations — all to support personal development.
- Support for SEN, and dealing with issues regarding bullying
- more after school sport activities
- Listening to the children
- Dealing with behavioural issues with some students in class
- Sen
- More choice in after school clubs like football/dancing etc
- More Interventions
- More free stuff for kids
