

## Name Writing

Practice writing the letters in your name correctly. Can you rainbow write your name? Can you write your second name?

Challenge: Can you create your name in a different way? Be as creative as you can. E.g., Using stickers, collecting objects outside to create the letters, using playdough.

## Free Choice

It's always important to have some freedom in what you do...

If you have been learning about something really exciting in school and want to produce a piece of work about it, then that would be fantastic!

Make sure you share it with your teachers on Class Dojo.

## Phonics

Practice your child's sounds in their green sound books.

Can they write the letters?

Can they spot the sound in books?

Can they remember the rhyme to match the sound?

At St John's, we learn to read so that we can read to learn!

Spend 10 minutes sharing a story with your child each day. This could be a favourite book, a school book or a bedtime story. Talk to your child about the pictures in the book, the characters, what might happen next in the story, sounds and words they recognise.

Could they draw a picture of their favourite part?

## FS2 Homework Menu: Spring 1 – Ticket to Ride

Choose one activity per week from the grid below. Be as creative as you can and show off your uniqueness!

### Positional Language

Can you use positional language to direct your family on a walk to the park/woods/shop?

### Vehicles

Draw a selection of vehicles.

Can you label them?

### Play a Board Game

Play your favourite board game with a grown up. Make sure that your board game uses a dice!

One of my favourites is Snakes and Ladders!

### Construction

Design and make your own boat.

You could use a fruit tray as the base or a milk bottle cut in half.

Does your boat float or sink?

### Winter Scene

Be creative and make a winter scene.

### Going on a Journey

We have been learning about different vehicles. Choose a mode of transport and go on an adventure! This could be on a bike, scooter, bus or even a train. Have fun and take a picture!

Maths is all around us!

- Encourage your child to spot numbers in different places; house numbers, when shopping, on signs.
- Count in different ways; clapping, jumping, steps, objects, number songs.
- Baking; measuring ingredients, recognising numbers, comparing weight.
- Talk about the names of the days of the week.
