Championing Excellence for Everyone

Year 4

Multiplication

Check (MTC)

2025

Important information about multiplication tables check (MTC):

- The MTC determines if Year 4 children can fluently recall their multiplication tables.
- They are designed to help schools identify which children require more support to learn their times tables.
- There is no 'pass' rate or threshold which means that, unlike the Phonics Screening Check, children will not be expected to re-sit the check.

When the check will take place?

Cheadle Heath
Primary School

- We will be administering the check from Monday 8th June 2025.
- There is no set day to administer the check and children are not expected to take the check at the same time.
- All eligible Year 4 children in England will be required to take the check.
- There is a 'Try it out' area, provided by the DfE, which will take place in school.

How is the check carried out?

- The check will be fully digital.
- Answers will be entered using a keyboard, by pressing digits using a mouse or using an on-screen number pad.
- Usually, the check will take less than 5 minutes for each child.

Cheadle Heath
Primary School

- The children will have 6 seconds from the time the question appears to input their answer. (6 seconds per answer means that children must be able to read, recall and enter their response within that time. Whatever is written in the answer box at the end of 6 seconds will be counted as the answer.)
-
- There will be a total of 25 questions with a 3 second pause in-between questions.
- There will be 3 practice questions before the check begins.

Specific Arrangements for the check?

- Some children will be eligible for specific arrangements:
- Colour contrast;
- Font size adjustment;
- 'Next' button (alternative to 3-second pause);

Cheadle Heath
Primary School

- Removing on-screen number pad;
- An adult to input answers;
- Audio version;
- Audible time alert.

What are the questions like?

- Each child will be randomly assigned a set of questions
- There will only be multiplication questions in the check, not division facts.

Cheadle Heath
Primary School

- The 6, 7, 8, 9 and 12 times tables are more likely to be asked, as these are the hardest for most children to learn. It's a good idea to focus on these tricky times tables with your child at home.
- Reversal of questions (e.g. 8×6 and 6×8) will not be asked in the same check.
- Children will not see their individual results when they complete the check.

How can I best prepare my child?

- Remind them that the check should last no more than 5 minutes.
- Support your child to go over their times tables, make them fun.
- If you have any concerns, talk to your child's teacher.

Cheadle Heath
Primary School

- If your child has any concerns, encourage them to talk to a trusted adult (for example, yourself, their teacher).
- If you're looking to support your child further with maths at home, there are lots of good websites with free resources.

What games can support my child?

- Climb the stairs counting in multiples
- Play time tables games verbally.
- Listen and sing along to times tables songs.
- Take it in turns to say times tables in funny voices.
- Play maths games online:
