

### Spotlight on F1

2 Year Old Room: We have recently been learning all about healthy lifestyles in our two-year-old room. We have explored healthy and unhealthy foods, discussing which foods help our bodies grow strong and healthy. We have also been learning about the importance of oral health and practising good tooth-brushing habits.

The children have enjoyed learning new songs, taking part in creative activities, and developing their physical skills through dancing sessions and outdoor obstacle courses. It has been wonderful to see their enthusiasm and confidence grow as they learn through play and exploration.

3 Year Old Room: Last term, we had lots of fun exploring the topic of Transport. We learned about different types of transport, including those that travel by land, sea, and air. As part of our learning, we also explored our wider world and discovered different places we can visit using various forms of transport.

Alongside our topic work, we worked very hard on developing our phonics and mathematics skills, showing great enthusiasm and progress throughout the term.
