

Spotlight on Year 3

Year 3 have had an amazing start and have settled into their new year group amazingly well. They have already shown such enthusiasm, curiosity and excitement for their learning. What a busy few weeks they have had from learning all about their bodies and discovering the different bones that make up the skeleton, to travelling back in time to explore cave art. The children became artists and archaeologists as they investigated patterns and textures around our playground.

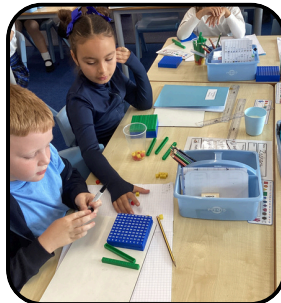

In Maths, the children have been building their confidence with place value. We have discussed using Diennes to help us understand hundreds, tens and ones and the children have worked together to represent numbers in different ways.

Year 3 really do love a challenge!

Their positive attitudes, enthusiasm and willingness to have a go is wonderful to see.
