Spotlight on Year 4

Year 4 have begun an exciting scientific enquiry into the living things in our local area! We visited our annexe playground and created tally charts to record the number of flowering and non-flowering plants, vertebrates and invertebrates we could spot. We discovered a wonderful variety of living things, including insects and birds, and carefully recorded our findings. We also discussed how the number and variety of living things might change as the seasons progress into spring and summer. We can't wait to continue our enquiry in the spring term, collect more data and compare our results to see how our local environment changes throughout the year!

Wednesday 21 October

Year 4 Residential

Year 5 Come and Share 9.15am

Thursday 22 October

Whole School Attendance Assembly

School closes to pupils for half term

Harvest Festival Donations

Wirral Foodbank is a local charity providing emergency food to local people in crisis.

The Foodbank principle is based on giving a small amount of food to people who suddenly find themselves without any food or money to buy it; this can be for a range of reasons.

We would like to support Wirral Foodbank as part of our Harvest Festival offering.

The Food Bank are asking for donations of the following:

Cereal - Tinned Fruit
Tinned Meat - Tinned Vegetables

If you wish to dontate please send them in with your child on Tuesday 20 October.
