Spotlight on Year F1

Mrs Jones's class and Miss Fisher's class have been very lucky to enjoy some exciting experiences! We welcomed YogaBears into our classrooms, where the children explored different breathing techniques, yoga poses and stretches. We have been developing our physical skills, practising ways to relax and regulate our bodies, and working together with our friends.

We also enjoyed a lovely walk to our local library. Along the way, we made observations about our community and the things we could see around us. Once at the library, we had the opportunity to explore a range of books and enjoy spending time in this special place.

Miss Fisher's children have also begun their Forest School adventures! We have been exploring the outdoor environment in more depth, learning how to keep ourselves safe around the fire circle and being introduced to using a saw safely to cut wood. We are looking forward to developing our confidence, independence and outdoor skills as our Forest School adventures continue!
