**Maths:** Aster Taylor

**Learner:** Cora Beck

### CLASS TWO

**English:** Delilah Dudley

**Maths:** Leo Carling

**Learner:** Rex Khazai-Nejad

### CLASS THREE

**English:** Lily Parnell

**Maths:** Bobby Bolton

**Learner:** Rudy Khazai-Nejad

### CLASS FOUR

**English:** Penelope Hulme

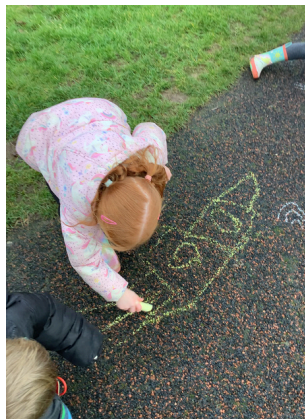

**Maths:** Cameron Slaughter

**Learner:** Oliver Robinson

Archbishop Hutton's Primary School

## A Busy and Active Week

We have had another very busy week. Class 1 have been exploring outdoors and have been learning all about NSPCC PANTS in PSHE. Class 2 have been writing great stories and Class 3 have been acting plays in English. Class 4 had a very competitive afternoon of handball in the hall. We are certainly ready for the weekend.

During the week commencing 2<sup>nd</sup> February, we will be holding a *What do you Love?* week in school. The aim of this week is to promote oracy - the ability to speak clearly and fluently. This is an important part of development in English and also improves confidence. This week, the teachers all spoke in assembly about activities they enjoy at home. The children will then be asked to prepare a very short talk about something they love to share in class. Further details will be sent home next week and we would appreciate parent's help in preparing their child for their talk. It should be a great week.

## Cross Country Next Week

Next Thursday, we are hosting the annual Cross Country competition. Archbishop Hutton's usually do very well in this event, where we compete against local small schools. This year it is exciting because Year 1 and Year 2 will be running for the first time. Parents are welcome to attend if they wish to cheer on the runners.

The week commencing the 16<sup>th</sup> March will be Science Week in School. Each year, we take part in lots of science activities and investigations across the school and celebrate the amazing way in which Science impacts our daily lives. Each year, we ask the children to produce an amazing model or poster to bring in and share. **On Friday 20<sup>th</sup> they join forces with other classes to talk about their work and look at other people's home learning.** It is always an amazing morning. Parents are invited to school in the afternoon to join in with some experiments and to share all of the great work the children have done. We really look forward to seeing you. **Below are examples of work from Science Week 2025.**

## Amazing Science Project

We had a great Science filled day on Friday 14th March. Everyone who had completed a Science project at home brought them in for a massive show and tell in the hall. We had murmurations of starlings, nerves and skeletons, digestive systems, electric circuits, volcanoes, robotic hands, vehicles and many other amazing efforts. Well done everyone!
