

Week Beginning 2nd June 2026

Welcome back! Hopefully the sunshine will return soon (fingers crossed).

The children have come back into school refreshed and ready to learn. This week we have started our new English fantasy based story Aladdin. The children are loving it so far and already in the first 4 days of a new half term, some children have produced excellent setting descriptions. In maths we have started the tricky topic of time. I have been impressed with how much the children already knew. We will build on this further until they are confident.

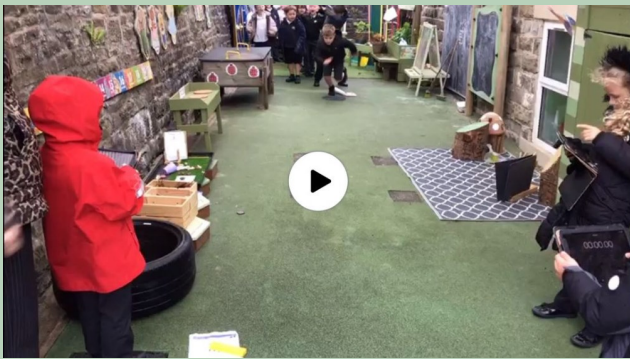

In Science we have begun to learn about plants. We absolutely love this topic, as it is such hands on learning and explorative. Many of our children are quite 'green fingered' too.

Week Beginning 2nd June 2026

Investigating and getting to know a key board and learning how to touch types for Key Stage 1 pupils.

In the pouring rain we used our lovely outdoor area to run some races and time them in minutes and seconds. The Key Stage 1 children loved it!
