

This week has been another busy one in Class 3. In Maths, both Year 5 and Year 6 have been developing their understanding of place value and using number lines to represent, compare and locate numbers accurately. The children have shown increasing confidence when working with larger numbers and explaining their reasoning.

In English, we have continued responding to our class text while exploring how writers use action, dialogue and description to engage their readers. To help bring the story to life, we took our learning outdoors and acted out key scenes together. The children then used these experiences to inspire their writing, carefully weaving together action, dialogue and descriptive language to create detailed and engaging responses.

In DT, we began our Anglo-Saxon house project and have started constructing the frames of our models. The children enjoyed learning about how Anglo-Saxons built their homes and are looking forward to seeing their creations take shape over the coming weeks.

We were also fortunate to welcome the Fire Brigade into school. The visit provided lots of valuable information about staying safe at home and when travelling. The children learned about road safety, bike safety, car safety and simple ways to help prevent fires in their homes. They represented the school brilliantly and asked some thoughtful questions.

To round off the week, Class 3 enjoyed a fantastic PE lesson focused on hockey. The children worked hard on their striking skills and showed excellent determination, teamwork and sportsmanship throughout the session.

Well done to everyone for another fantastic week of learning. Have a lovely weekend!
