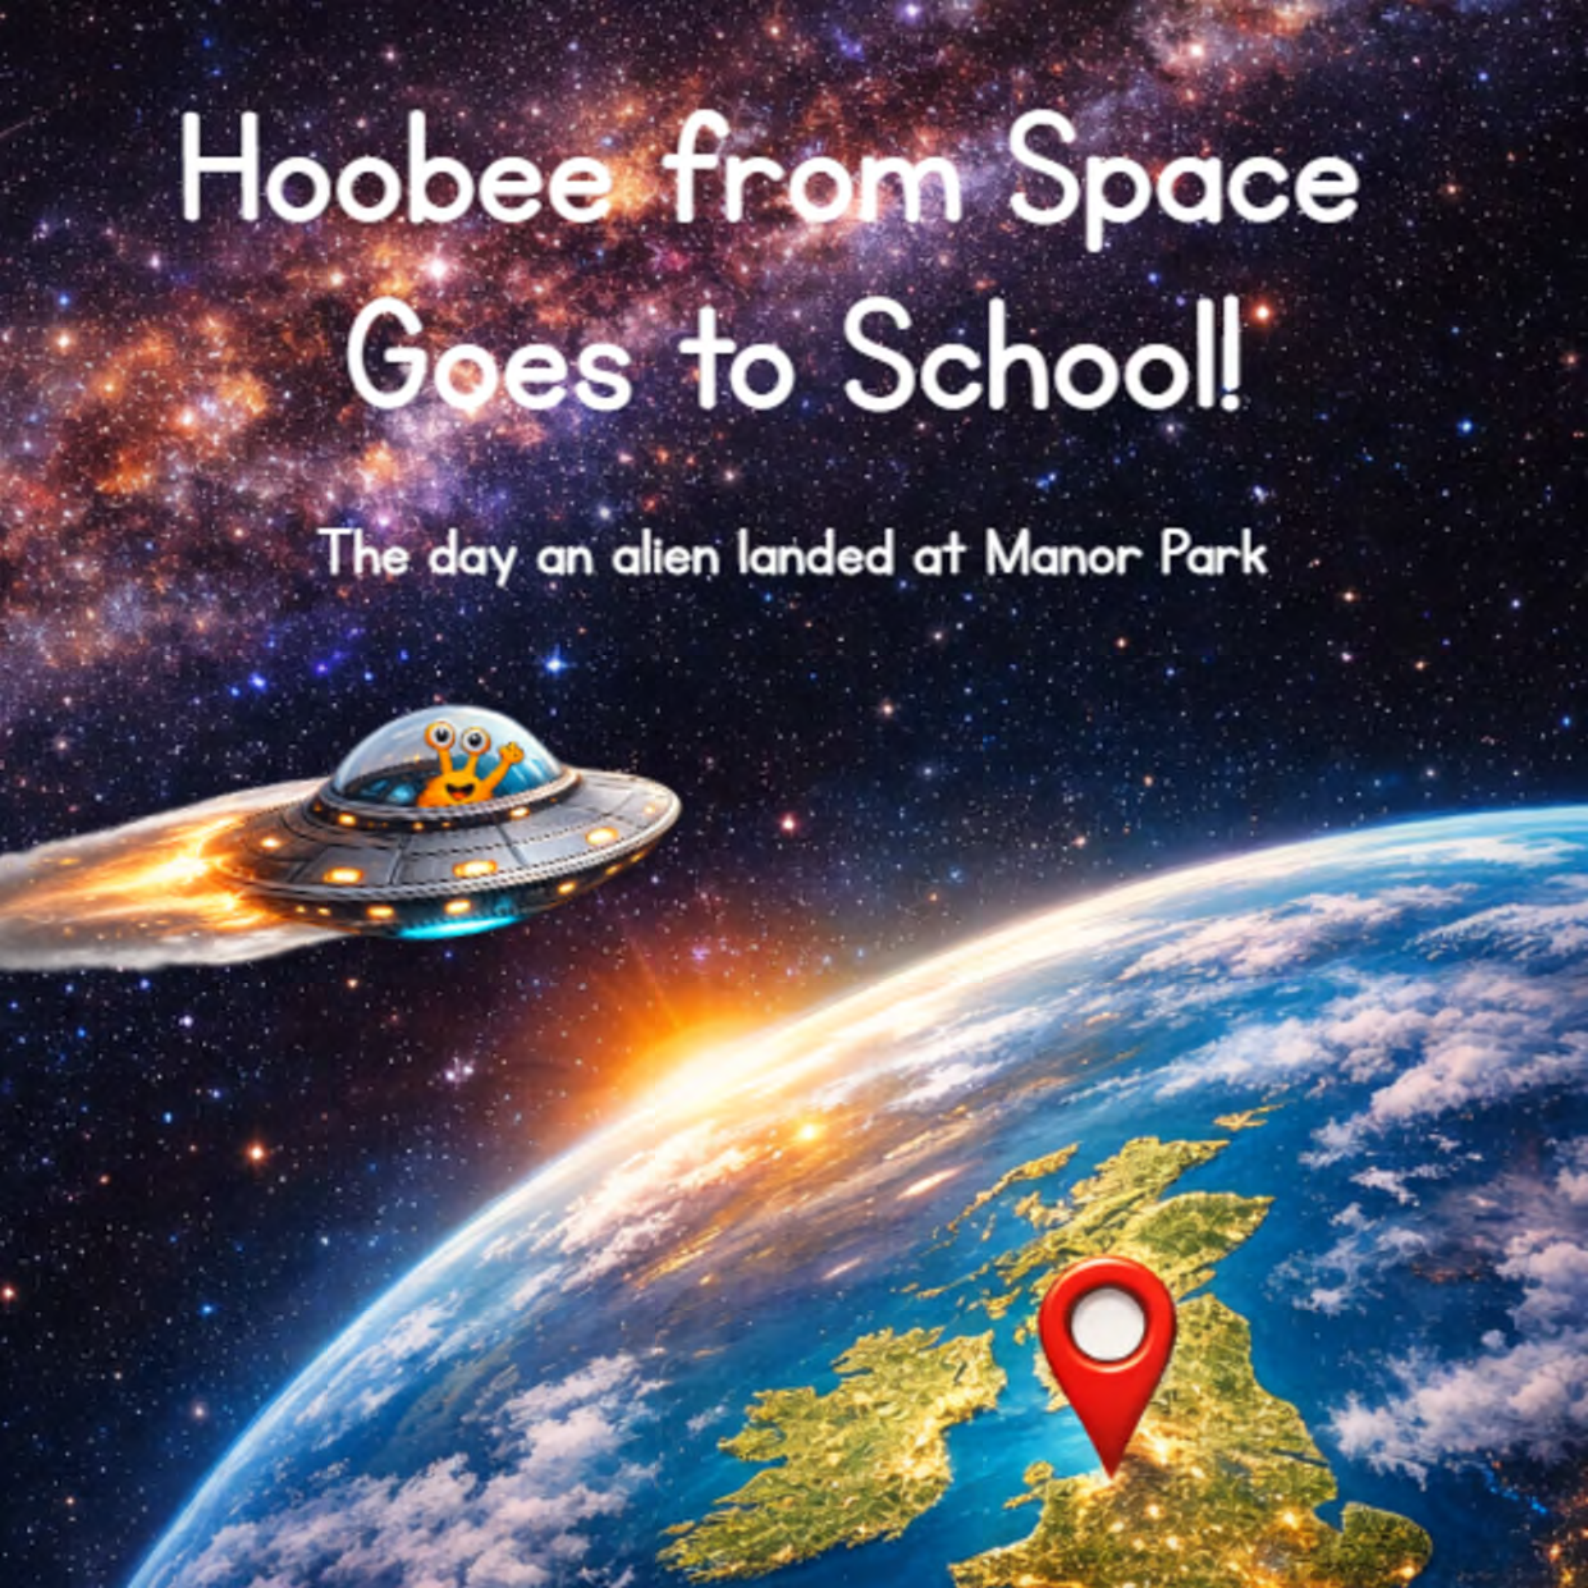
Hoobee from Space Goes to School!

The day an alien landed at Manor Park



One bright morning at
Manor Park
Primary School,
something unusual
happened ...

Whoosh! A spaceship crashed into the school field.
A creature climbed out. He was lost.

"Hello. Who are you?" asked the children.
"Hi, I'm Hoobee! Where am I?" said the alien.

"This is Manor Park Primary School.
It is in Knutsford," they explained.
"It is in England. England is part of the United Kingdom."

Which country do you live in? Can you label the countries and colour the country you live in?

Keywords:
Scotland
England
Wales
Northern Ireland

I live in Knutsford

What type of settlement do you live in? Tick the correct answer.

List things you can see in **your local area**, such as **hills**, **a river**, **a church** or **shops**.

"What is a school?" asked Hoobee.
"A school is where children go to learn, do lots of things and have fun.
It is made by people. Let's show you around," said the children.

Human Features are things that are made by people.

Physical Features are things that are made by nature.

"What's this place?" asked Hoobee.
"It is the quiet area. You can come here if you want to be calm and have quiet time."

This is a Human Feature

It has:

A fence and benches made of wood.

Toys and roof made of plastic.

"What's this place?" asked Hoobee.
"This is the MUGA. We can play lots of different sports here," the children told him.

This is a Human Feature

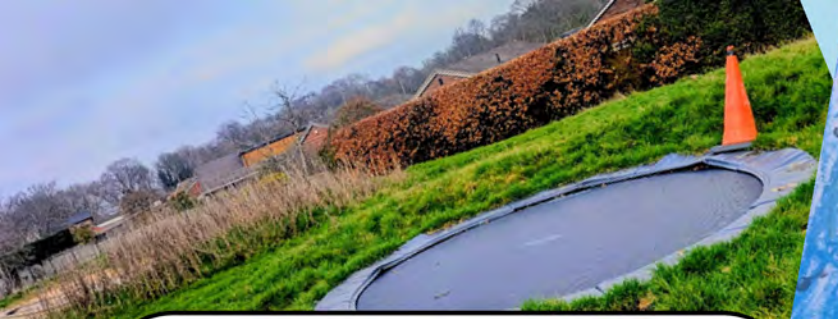
It has:

A fence and basketball hoop made of metal.

Football goals made of plastic.

The grass is not real! It is plastic so you don't get muddy.

"What's this place?" asked Hoobee.
"This is the sandpit and trampoline. A sandpit is like going to the beach! A beach is a physical feature but this was made by people. The trampoline is for bouncing on," they explained.



This is a Human Feature

It has:

Buckets and spades

made of plastic.

"Where are we now?" asked Hoobee.
"This is our woods called the Spinney. It has lots of trees to climb and we can look for bugs.

This is a Physical Feature

"What is this?" asked Hoobee.
"This is our classroom," the children replied.

This is a Human Feature

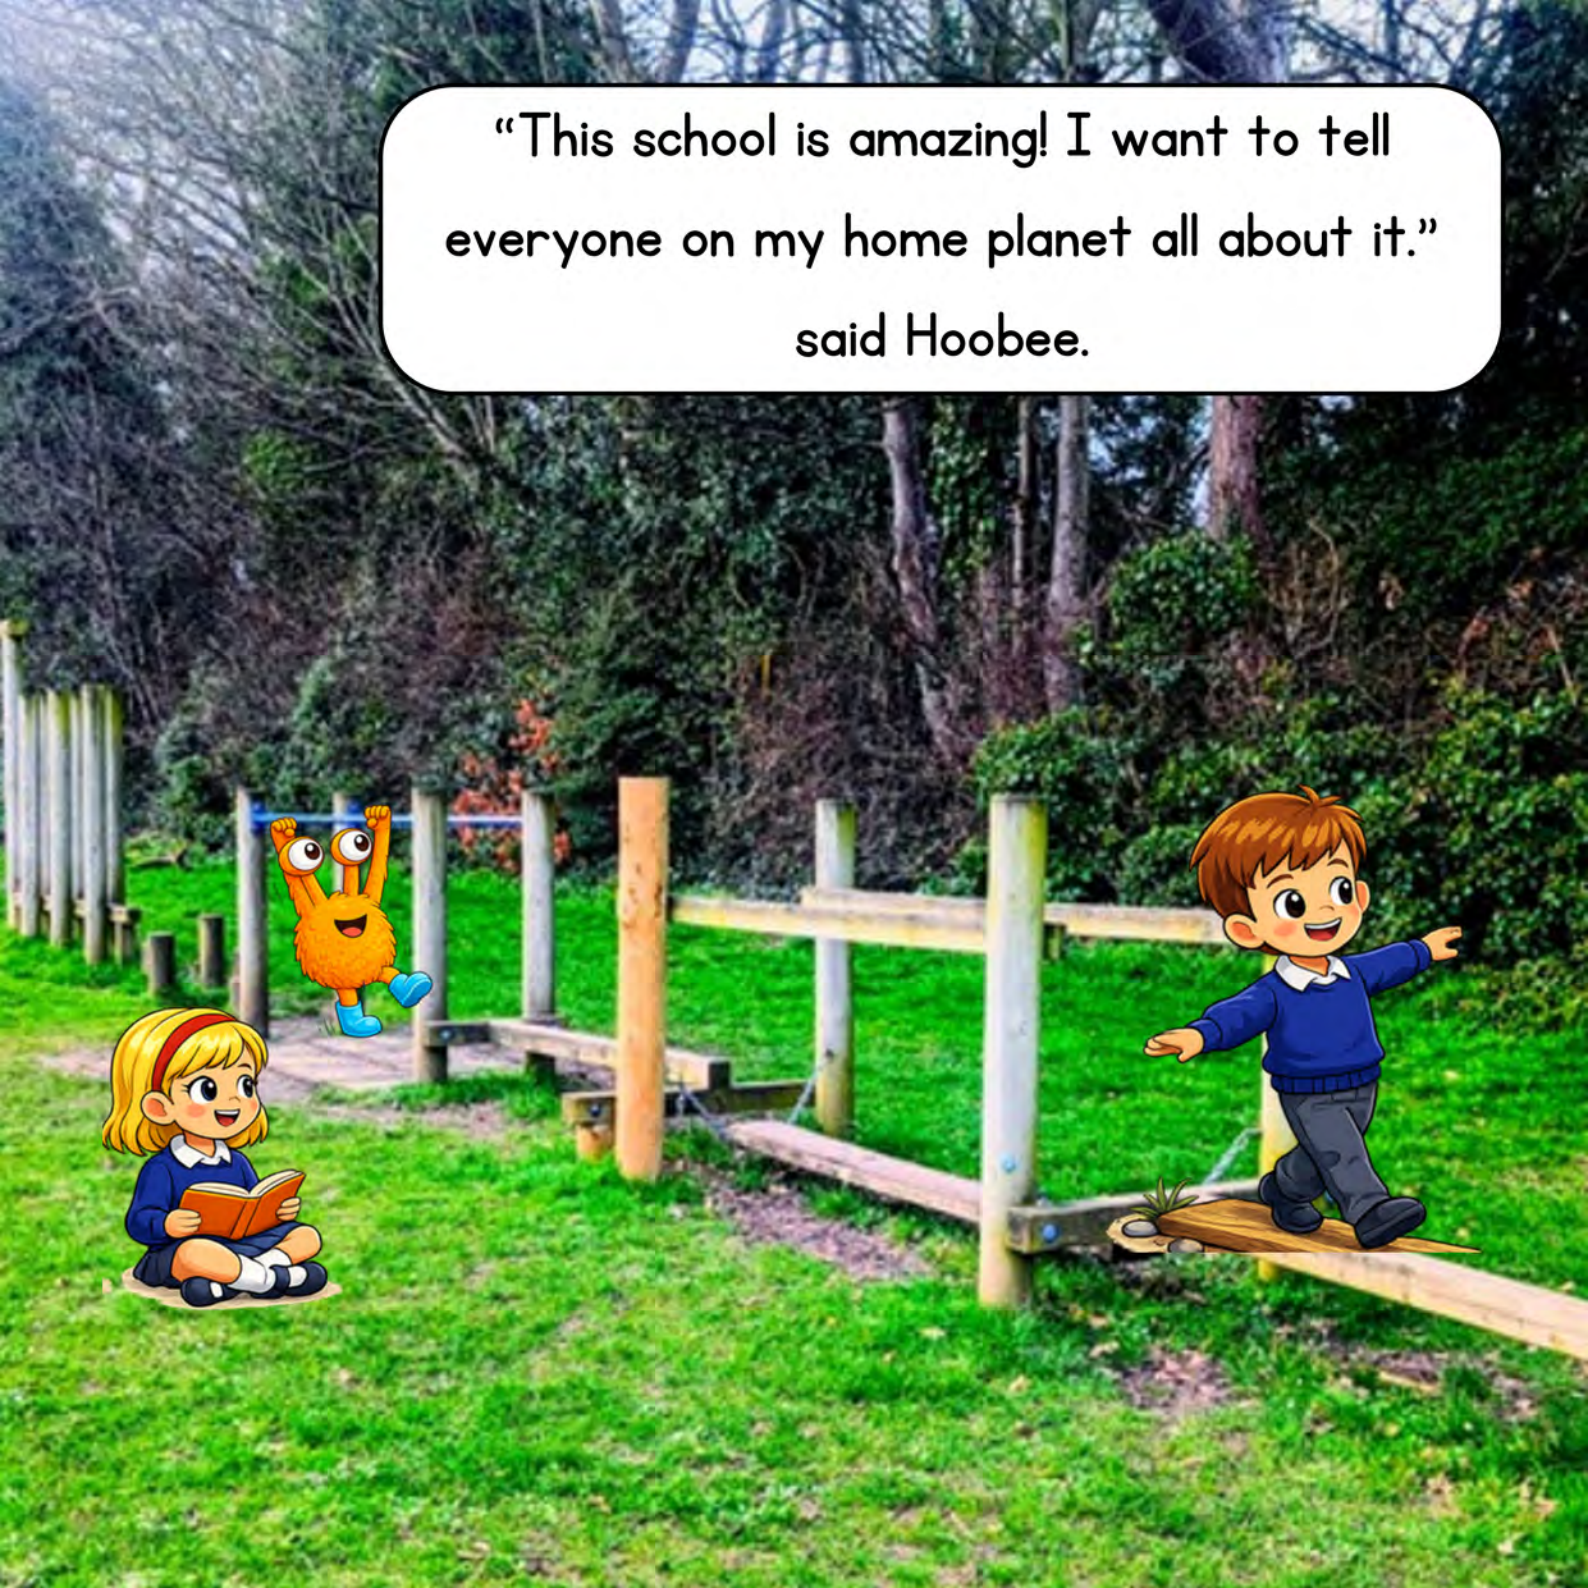
It has:

Tables made of metal.

Chairs made of plastic.

A tent made of fabric.

Our other favourite places!



"This school is amazing! I want to tell everyone on my home planet all about it." said Hoobee.

Just then...
Zoom!
"It's my mummy and daddy to take me home!" said Hoobee excitedly.

"Thank you for showing me your wonderful school," Hoobee said as he waved goodbye. The children smiled. They had shown the alien just how special their school is.
