

## Framework for progression in mapwork

The following document sets out a framework for skills progression in mapwork. It has been designed for schools following our Long-Term Planning Pathways, but can also be drawn on by schools following their own pathways.

Together with knowledge outcomes, this framework will help to meet the requirements of the 2019 Ofsted framework.

- **Intent.** The framework assures curriculum breadth, coverage, content and a structure that enables clear progression in knowledge and skills. (Ofsted Handbook, 157: *“It is clear what end points the curriculum is building towards, and what pupils will need to be able to know and do at those end points...The school’s curriculum is planned and sequenced so that new knowledge and skills build on what has been taught before, and towards those defined end points.”*)
- **Implementation.** The teaching activities in the Oddizzi Schemes will help ensure lively, effective and appropriate learning based on the structured Pathways.
- **Impact.** Oddizzi’s Assessment Frameworks will help demonstrate that teaching has resulted in clear and appropriate outcomes.

## By the end of Key Stage 1...

...children will have engaged in a range of activities that develop their environmental awareness, wayfinding, basic map competencies and map interpretation skills. They will have engaged with the materials available on the Oddizzi website (we have linked them to the relevant Schemes, below). They will have had regular opportunities to use and play with a variety of maps and globes, including the online interactive map on the Oddizzi website and our downloadable map worksheets.

### Extracts relating to map work from Pathways progression narrative

**By the end of Year 1**, children should be *able to*:

- annotate a simple map of the UK with some of its key features;
- look at simple maps and aerial views of the local area, discussing and asking questions about its main features and the way symbols have been used;
- work together to create a simple map of the local area.

In addition, children should have had opportunities to develop their skills of mapwork through incidental opportunities within other subjects and via fieldwork and 'geography in the news'.

**By the end of Year 2**, children should be *able to*:

- use globes and atlases – and annotate maps – to identify continents and oceans, including the location of the UK, Europe, Zambia and Africa;
- use globes and atlases – and annotate maps – to identify the world's hot and cold regions, locating the UK and Zambia within them;
- look at simple maps and aerial views of a contrasting locality in Zambia, discussing and asking questions about its main features and comparing these with the UK;
- make use of the four main compass points when describing the location of these key locations and regions.

In addition, children should have had the opportunity to develop their skills of enquiry and fieldwork (including the use of data and mapwork), and to make regular use of globes and atlases, through incidental opportunities within other subjects, via 'geography in the news' and through dedicated fieldwork days.

|  | <b><u>Weather and climate</u></b> * (fieldwork opportunity)                                                                                                                                                                                                                                                                                                                                                                                      | <b><u>United Kingdom</u></b> * (fieldwork opportunity)                                                       | <b><u>Local area</u></b> * (integrates fieldwork)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
|--|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|  | <p><b>Mapwork</b><br/>Children go outside to explore their local school environment. In groups, they fill in worksheets based on what they can see. Once back in the classroom, they discuss what seasonal clues they have found. Using observations and evidence from the school grounds, children fill in their own weather diary. Using a weather forecast sheet, they write their own weather report based on a particular weather type.</p> | <p><b>Mapwork</b><br/>Children locate and label the UK, its countries, capital cities and seas on a map.</p> | <p><b>Mapwork</b><br/>Children look at an aerial view of their home or school. If they were looking out of the window, what would they see? They list the main features. They compare the actual view from the window with their lists.<br/>Children carry out simple fieldwork within the school, observing its main features and using simple charts to collect data. Extension activities: children make a simple model of the school and its grounds from construction materials; they plan a route for showing a visitor around the school; they help an alien build a school<br/>Local area fieldwork: children observe and record human and physical features of the area. Vocabulary game: Children create a concrete poem based on what they can see. Extension activity: Children mark features of the route on a journey stick. Journey recount: children use directional language.<br/>Using online aerial views and map views of the local area, children discuss and locate</p> |

|  |                                                                                                                                                                                                                                                                                                            |                                                                                                                                                      |                                                                                                                                                                             |
|--|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|  |                                                                                                                                                                                                                                                                                                            |                                                                                                                                                      | the key features they have seen during fieldwork, and what they notice as the view 'zooms out'. They consider the use of Ordnance Survey symbols in mapping the local area. |
|  | <b><u>Continents and oceans</u></b>                                                                                                                                                                                                                                                                        | <b><u>Hot and cold places</u></b>                                                                                                                    |                                                                                                                                                                             |
|  | <b>Mapwork</b><br>Where in the world am I? Children use the online Oddizzi map to locate and name their home area, county and country and make comparisons with other places. Children name and locate continents and oceans on world maps. They answer directional questions and add information to maps. | <b>Mapwork</b><br>Children annotate a world map with its main hot and cold places. Children use maps and globes to locate the Equator and the Poles. |                                                                                                                                                                             |

### **By the end of Lower KS2 (Year 4)...**

...children will have engaged in a range of activities that develop their environmental awareness, wayfinding, basic map competencies and map interpretation skills. They will also have engaged with materials available on the Oddizzi website (we have linked them to the relevant Schemes, below). They will have had regular opportunities to use and play with a variety of maps, globes and atlases. This includes the online interactive map on the Oddizzi website and the downloadable map worksheets.

#### **Extracts relating to map work from Pathways progression narrative**

***By the end of Year 3***, children should be *able to*:

- use globes and atlases to identify climate zones and consider their impact on different parts of the Americas, including South-East Brazil;
- use globes, atlases and maps to identify the main human and physical features of North and South America;
- interpret maps and aerial views of the Americas, South-East Brazil and Rio de Janeiro at a variety of scales, discussing and asking questions about their main features, and comparing these with places previously studied;
- use appropriate vocabulary when describing place locations and map features (e.g. the Equator, the tropics, the world's hemispheres).

In addition, children should have had the opportunity to further develop their skills of enquiry and fieldwork (including the use of data and mapwork), and to make regular use of globes and atlases, through incidental opportunities within other subjects, via 'geography in the news' and through dedicated fieldwork days.

***By the end of Year 4***, children should be *able to*:

- use globes, atlases and maps to locate the world's principal rivers, rainforests (and other biomes), including the Amazon;
- interpret a range of maps and aerial views of the Amazon and apply this information to their understanding of it.

In addition, children should have had the opportunity to further develop their skills of enquiry and fieldwork (including the use of data and mapwork), and to make regular use of globes and atlases, through incidental opportunities within other subjects, via 'geography in the news' and through dedicated fieldwork days.

|  | <b><u>Volcanoes and earthquakes</u></b> (NB: this is a longer Scheme)                                                                                                                                                                                                             | <b><u>European region</u></b> ( <i>medium-term plan</i> )                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | <b><u>Rio and South-East Brazil</u></b>                                                                                                                                                                                                                                                                           |

## **By the end of Key Stage 2 (Year 6)...**

...children will have engaged in a range of activities that develop their environmental awareness, wayfinding, basic map competencies and map interpretation skills. They will have engaged with materials available on the Oddizzi website (we have linked them to the relevant Schemes, below). They will have had regular opportunities to use and explore a variety of maps, globes and atlases. This includes the online interactive map on the Oddizzi website and the downloadable map worksheets.

### **Extracts relating to map work from Pathways progression narrative**

**By the end of Year 5**, children should be *able to*:

- interpret a range of maps and aerial views of Athens, Greece and the Mediterranean region and apply this information to their understanding of it (e.g. when arguing the case for tourism in the Mediterranean);
- use globes and atlases to identify the location of Greece and the Mediterranean.

In addition, children should have had the opportunity to further develop their skills of enquiry (and to make regular use of globes and atlases), through incidental opportunities within other subjects, via 'geography in the news' and/or through dedicated fieldwork days.

**By the end of Year 6**, children should be *able to*:

- interpret a range of maps of the UK and the local region and apply this information to their understanding of it;
- use maps and supporting information to route-plan a tourist trip around the capital cities of the UK;
- use and annotate Ordnance Survey maps, including the use of grid references, in order to present arguments about change in the local region.

In addition, children should have had the opportunity to further develop, use and apply their skills of enquiry and fieldwork (including the use of data and mapwork), and to have done so with a greater degree of confidence and independence. They should have continued to make regular use of globes and atlases, including considering some of the key questions and choices involved in their construction and creation. This should have taken place through opportunities within other subjects, via 'geography in the news' and through additional dedicated fieldwork days that include a degree of independent investigation.

|  | <b><u>Mountains*</u></b> (fieldwork opportunity)                                                                                                                                                                                                                                                   | <b><u>Climate zones</u></b>                                                                                                                                                                                                                                                                                                                                 | <b><u>South America – the Amazon</u></b> ( <i>medium-term plan</i> )                                                                                                                                                                                               |

|  | <p><b>Mapwork</b><br/> Children use maps and atlases to review and mark the location of the UK's countries, capitals and seas and to make comparisons between places.<br/> Children use evidence from maps, aerial images and other sources to find out about their home area and the UK's cities, counties and regions. They annotate maps with this information. Children use atlases to plan a road trip around the UK.<br/> Children use maps to locate and investigate the UK's national parks.</p> | <p><b>Mapwork</b><br/> Children use online maps at a variety of scales to explore and locate the main features of their home region.<br/> Place consequences<br/> Children use road maps to investigate sites of interest at a range of distances from their local area, and annotate their locations and distances.<br/> Travelling out<br/> Children carry out fieldwork to investigate and gather data, including locational information and chatterbox sketch maps, as to how a local urban area meets people's needs.<br/> Children use evidence from the fieldwork to annotate an Ordnance Survey map of the local urban area, showing how it meets people's needs (a simple land use map). This includes devising symbols and a key, and referencing some key sites using six-figure grid references.<br/> Children incorporate maps into extended writing (in the form of a newspaper article) about how their local region meets people's needs. Extension ideas: planning a trip to a regional feature; creating and annotating an online map to document fieldwork findings.</p> |
