

## Year 5's guide to being more environmentally friendly

1. Recycle plastic, cardboard, paper, metal, glass
2. Turn lights off if you are not in the room
3. Don't leave electrics on standby
4. Choose an electric car!
5. Don't burn fossil fuels if you can choose another way
6. Use solar or wind energy if you can
7. Don't leave the taps running
8. Maybe walk or cycle for short journeys
9. Use a composter for wasted food
10.      Use a water butt to collect rainwater for watering plants
11.      Grow your own vegetables
12.      Try to grow more plants to help with CO<sub>2</sub> removal
