Foreword by Rev. Elizabeth Rowles Chair of Governing Body (St John's C.E Primary School)

'St John's CE School is committed to promoting and safeguarding the welfare of all its children, both in the school building and at home / in the community. This policy provides key information and processes to be understood and referenced by all staff and governors, provides a bedrock upon which ongoing training should be based, and ensures continued compliance with safeguarding legislation. With adherence to this policy, we aim for all pupils of the school to be kept safe through signs and symptoms of abuse, whether that be from adults or from peers, in person or online, being identified early and action being taken to minimise current and future risk to the child (ren), thus ensuring that the very best outcomes in life are achieved for them.'

Purpose and principles

The purpose of this document is to ensure that all stakeholders are aware of the arrangements that St John's C.E has in place for safeguarding and promoting the welfare of its pupils. It provides guidance to help staff who may have concerns about the safety or welfare of a child and sets out the school position in relation to safeguarding and child protection.

- This policy has been written in line with the Department for Education statutory guidance Keeping Children Safe in Education 2026 and other relevant UK legislation and government guidance.
- It applies at all times when the school is providing services or activities directly under the management of school staff, including off-site activities, educational visits, alternative provision and extended/wraparound provision where applicable.
- It is publicly available on the school website and a printed copy can be made available via the school office.

This policy is consistent with all other policies adopted by the Governors and should read in conjunction with the following policies relevant to the safety and welfare of children:

- Anti-Bullying Policy
- Behaviour Management Policy
- Staff Code of Conduct/Handbook
- IT/Online Safety Policy
- Whistle blowing Policy
- Children missing from Education Policy

This policy includes the school arrangements for child protection and safeguarding, including procedures to minimise and respond to child-on-child abuse; systems for children to report abuse confidently; arrangements for reporting, recording, investigating and responding to concerns; support for children who have been harmed,

children who may have caused harm and other affected children; recognition that abuse may still be taking place even where there are no reports; a zero-tolerance approach to abuse; and linked arrangements for online safety, SEND, attendance, safer recruitment, allegations management and local multi-agency safeguarding procedures.

Additional and more detailed policy guidance published through the Greater Manchester safeguarding procedures will be used alongside this policy to ensure that we are referring to the most up-to-date local guidance. This will include any relevant guidance, procedures or resources published by the Stockport Safeguarding Children Partnership (SSCP). To access this information, we will use the following links:

Welcome to the Greater Manchester Safeguarding Children...

Stockport Safeguarding Children Partnership (SSCP) - Stockport Council

Stockport Multi-Agency Response to Need 2026

Safeguarding and child protection definitions

Safeguarding and promoting the welfare of children is defined as:

- providing help and support to meet the needs of children as soon as problems emerge;
- protecting children from maltreatment, whether that is within or outside the home, including online;
- preventing impairment of children's mental and physical health or development;
- ensuring that children grow up in circumstances consistent with the provision of safe and effective care; and
- taking action to enable all children to have the best outcomes.

Child protection is part of safeguarding and promoting the welfare of children and refers to activity undertaken to protect specific children who are suspected to be suffering, or likely to suffer, significant harm. This includes harm that occurs inside or outside the home, including online.

Policy statement

This safeguarding policy encompasses child protection.

Statutory and local framework

This policy has been developed in accordance with the principles established by the Children Acts 1989 and 2004 and relevant statutory guidance. As part of our commitment to safeguarding legislation and local arrangements, we refer to:

- Keeping Children Safe in Education 2026;
- Working Together to Safeguard Children, as amended or updated;
- What to do if you're worried a child is being abused: advice for practitioners;
- Early Years Foundation Stage statutory framework, where applicable;
- Education Act 2002 and related statutory safeguarding duties;
- Education (Independent School Standards) Regulations 2014, where applicable;
- Non-Maintained Special Schools (England) Regulations 2015, where applicable;
- Apprenticeships, Skills, Children and Learning Act 2009, where applicable;

- Human Rights Act 1998;
- Equality Act 2010, including the Public Sector Equality Duty where applicable;
- Data Protection Act 2018, UK GDPR and the Data (Use and Access) Act 2025;
- Local arrangements and procedures published by the Stockport Safeguarding Children Partnership (SSCP);
- Greater Manchester safeguarding procedures and Stockport local threshold guidance.

Safeguarding: our approach

St John's C.E recognises its statutory responsibility to safeguard and promote the welfare of all children. Safeguarding is everybody's responsibility and all those directly connected with the school, including staff, volunteers, governors, leaders, parents, families and pupils, have an essential role to play in making the setting safe.

We believe that the best interests of children always come first, and we will always seek to understand their lived experience. All children, defined as those under the age of 18, have a right to be heard and to have their wishes and feelings taken into account. All children, regardless of age, sex, disability, culture, race, language, religion or belief, gender reassignment, pregnancy and maternity, or sexual orientation, have equal rights to protection.

Our core safeguarding principles are:

- **Prevention**: positive, supportive, safe culture, curriculum and pastoral opportunities for children and robust safer recruitment procedures.
- **Protection**: following agreed procedures and ensuring all staff are trained and supported to recognise and respond appropriately and sensitively to safeguarding concerns.
- **Partnership**: timely, appropriate communication and action with children, families and partner agencies.
- **Support**: for all pupils/students, parents/carers and staff, with targeted interventions where children may be at risk of harm.

Language and terminology

Term	Meaning in this policy
Child	All children and young people who have not yet reached the age of 18.
Cared for child/ren	In Stockport, we use the term cared for when referring to looked after children. A cared for child is a child who is in the care of the local authority, either through a care order or by being accommodated by the local authority. This may include children living with parents, foster carers, connected carers, in residential care or another approved placement.
Parent/carer	Birth parents and adults in a parenting role, including stepparents, foster carers, kinship carers, adoptive parents and other adults with parental responsibility or day-to-day care.
Staff	All those working for or on behalf of the school/college in a paid or voluntary capacity, including agency staff, contractors and sessional workers.

DSL	Designated Safeguarding Lead. References to the DSL include a trained Deputy DSL where appropriate.
Early Help	Support provided as soon as a problem emerges, including universal services, community-based support and targeted Family Help services.
Data protection laws	Data Protection Act 2018, UK GDPR and the Data (Use and Access) Act 2025.
Child sharing something of concern	We use the phrase “a child sharing or telling us something of concern” rather than relying solely on the term “disclosure”, recognising that children may communicate harm, worry or risk in different ways. Staff should remain alert to concerns about welfare and wider indicators of harm, particularly for non-verbal children, children who use alternative communication methods, and children for whom English is an additional language.
Children who have been harmed / children who may have caused harm	In this policy, we will generally use the terms “children who have been harmed” and “children who may have caused harm”. This language recognises that safeguarding concerns can be complex, that children may have multiple needs and vulnerabilities, and that language should avoid unnecessary labelling while still clearly identifying risk, impact and responsibility. Other terms, such as “victim”, “alleged perpetrator” or “perpetrator”, may be used where they appear in statutory guidance, legal processes, external agency records or where they are necessary for clarity.

Information sharing and confidentiality

We take data handling, confidentiality, and information sharing seriously. Effective safeguarding depends on timely, proportionate and appropriate information sharing. Staff have a professional responsibility to be proactive in sharing information as early as possible to help identify, assess and respond to risks or concerns about the safety and welfare of children.

All staff must understand that they should not assume that a colleague or another professional will take action or share information that may be critical in keeping a child safe. If staff are in any doubt, they must speak to the DSL or Deputy DSL.

- Information sharing decisions should be relevant, necessary, proportionate, clearly presented and appropriately contextualised.
- Staff should share information on a need-to-know basis with the DSL, children’s social care, safeguarding partners, police, health or other agencies as appropriate.
- Safeguarding information may be shared without consent where there is good reason to do so, including where seeking consent may place a child at increased risk or delay protective action.
- Fears about data protection must never be allowed to stand in the way of the need to safeguard and promote the welfare of children — the welfare of the child is paramount.
- The school will have regard to any statutory Information Sharing Duty and related guidance when it comes into force.

Key message for staff

Data protection laws do not prevent the sharing of information for the purposes of keeping children safe and promoting their welfare.

Data protection and safeguarding records

The school complies with the Data Protection Act 2018, UK GDPR and the Data (Use and Access) Act 2025. These are collectively referred to as data protection laws. Safeguarding records are kept confidential and stored securely, separately from the main pupil record.

- Records will include a clear and comprehensive summary of the concern, details of how it was followed up and resolved, and a note of action taken, decisions reached and outcomes.
- Safeguarding decisions and the rationale for them will be recorded, including occasions where a referral is not made.
- Child protection records will be transferred securely to a receiving school or college as soon as possible and within five days for an in-year transfer or within the first five days of the start of a new term.
- Secure transfer will be separate from the main pupil file, with confirmation of receipt obtained.
- Where appropriate, the DSL will consider sharing information in advance of a child moving setting where this is necessary to support risk management, continuity of support or the safety of the child or others.
- When transferring safeguarding records, the DSL will include a clear chronology or summary which distinguishes current risk, historic context, protective factors, actions taken and unresolved concerns. Where risk is significant, the DSL will speak directly with the receiving setting's DSL to support continuity of safeguarding support. Receiving settings should review transferred information promptly and seek clarification where records are incomplete or unclear.
- We manage all of our electronic files in accordance with the above.

Where we share information in relation to safeguarding or a child protection matter we follow local and national guidance, we pay particular regard to Information sharing advice_ for practitioners in safeguarding services and Data Protection Toolkit for School/colleges
All members of staff must be aware that whilst they have duties to keep information confidential, in line with our confidentiality policy.

Prevention and safeguarding culture

We will establish and maintain an ethos where children feel that they belong, that they are safe and secure, and where adults understand their safeguarding responsibilities. Children are encouraged to speak to trusted adults if they are worried, scared or experiencing difficulty. We strive to develop a culture of professional curiosity, challenge and respectful partnership with families and agencies.

- Staff development and awareness in respect of safeguarding is given the highest priority.

- All staff receive safeguarding and child protection training, including online safety and filtering and monitoring expectations, at induction and through regular updates, and are supported to understand and apply KCSIE requirements relevant to their role.
- Emerging issues and themes are proactively addressed and fed back to the Local Authority and SSCP through appropriate routes.
- Children are supported through the curriculum to understand relationships, risk, consent, online safety, misinformation, disinformation, reporting routes and how to seek help.

How concerns can be raised

The school will ensure that reporting routes are well promoted, accessible and understood by children, parents/carers, staff, volunteers and visitors. Children will be regularly reminded, in age-appropriate ways, who they can speak to if they are worried about themselves or another child. Parents/carers and visitors will be informed how to raise safeguarding concerns, including concerns about adults working with children. Staff must report concerns about children through the agreed safeguarding recording system and must report concerns about adults through the allegations, low-level concerns or whistleblowing processes as appropriate. Anonymous concerns will be considered carefully and recorded, with action taken according to the level of risk and available information. We will consider any concerns of a safeguarding nature; these will sit outside the complaints policy.

Definitions of abuse, neglect and exploitation

There are different ways of defining abuse, neglect and exploitation. For the purposes of this policy, we have included the definitions below; however, we will exercise professional judgement and work with safeguarding partners when considering concerns, including how abuse is understood, identified and responded to. Staff are trained and supported to understand and recognise indicators of abuse, neglect, exploitation and other safeguarding concerns. Safeguarding issues are rarely standalone events and multiple harms may overlap.

Type	Policy wording
Abuse	A form of maltreatment of a child. Harm can include ill-treatment that is not physical as well as the impact of witnessing ill-treatment of others. Abuse can take place within or outside the home, online or offline, and may be perpetrated by adults or other children.
Physical abuse	A form of abuse involving physical harm or the fabrication or induction of illness. Staff must report concerns promptly to the DSL.
Emotional abuse	Persistent emotional maltreatment likely to cause severe and adverse effects on emotional development. It can include verbal abuse, bullying, silencing, humiliation or exposure to harmful experiences.
Sexual abuse	A form of abuse involving forcing, enticing or exploiting a child. Staff must not investigate but must report immediately to the DSL.

Type	Policy wording
Neglect	Persistent failure to meet a child's basic physical and/or psychological needs, likely to result in serious impairment of health or development.
Exploitation	A child may be exploited criminally, sexually, financially, online or through coercion, threats, manipulation, grooming or imbalance of power. A child cannot consent to exploitation.

Child-on-child abuse, including harassment and violence

All staff should be aware that children can abuse other children and that this can happen inside and outside school and online. Even where there are no reports, staff must not assume that abuse is not happening. Concerns must be shared with the DSL or Deputy DSL.

What might we see:

- Bullying, including cyberbullying, prejudice-based and discriminatory bullying;
- Abuse in intimate personal relationships between children, sometimes known as teenage relationship abuse;
- Physical abuse, serious physical assault, harm or threats involving weapons;
- Harmful sexual behaviour, sexual violence and sexual harassment, including online harassment;
- Consensual, non-consensual or harmful making, sharing or manipulation of nudes or semi-nudes, including AI-generated/deepfake imagery;
- Upskirting and other image-based abuse;
- Misogynistic, misandrist, racist, homophobic, biphobic, transphobic, faith-based or other discriminatory abuse;
- Initiation/hazing type violence and rituals.

We will respond to child-on-child abuse as a safeguarding concern for both the child who may have been harmed and the child who may have caused harm. Responses will be proportionate, recorded, and informed by risk assessment, children's wishes and feelings, and the need to protect individuals and the wider school/college community.

Where child-on-child abuse **may** involve harmful sexual behaviour, the DSL will consider whether behaviour sits on a continuum from developmentally expected behaviour through to inappropriate, problematic, abusive or violent behaviour. The response will consider the ages and developmental stages of the children, any power imbalance, coercion, consent, frequency, previous incidents, wider peer-group dynamics and the safety of all children affected. Support and safety arrangements **may** include separate risk assessments, supervision or timetable arrangements, therapeutic or specialist support, curriculum intervention, parental engagement and referral to children's social care, police or specialist services where required.

Harmful Sexual Behaviour, sexual violence and sexual harassment

Harmful sexual behaviour, sexual violence and sexual harassment **are never acceptable** and will not be dismissed as "banter", "part of growing up", "just having a laugh" or typical behaviour. All reports and concerns will be taken seriously, those harmed will be supported, and those alleged to have caused harm will be supported and managed through safeguarding, and behaviour policies and, where necessary, statutory processes.

- Staff will report concerns to the DSL immediately and will not investigate incidents themselves.
- The DSL will consider the immediate safety of all children involved and the wider school environment.
- A risk assessment and support plan will be completed where required.
- Where a report involves harmful sexual behaviour, sexual harassment or sexual violence, the DSL will consider an immediate risk and needs assessment, including the safety and support needs of the child who has been harmed, any child who may have caused harm, other children who may be affected, the wider school community, shared lessons or spaces, transport and online risks.
- Parents/carers and external agencies, including children's social care and police, will be involved where appropriate.
- Where rape, assault by penetration, sexual assault, significant harmful sexual behaviour, coercion, exploitation, serious online abuse or immediate risk is alleged or suspected, the DSL will consider referral to children's social care and/or police without delay, in line with local procedures.
- The curriculum will teach respectful relationships, equality, consent, online safety and reporting routes in an age-appropriate way.
- When considering whether children should share classes, spaces, activities or transport following a report, leaders will prioritise safeguarding, the wishes and feelings of the child who has been harmed, risk and needs assessment, and the rights and support needs of all children involved. Decisions and rationale will be recorded and reviewed.

Contextual safeguarding and extra-familial harm

Safeguarding incidents and behaviours may be associated with factors outside the school and outside the child's home. Staff, especially the DSL and deputies, will consider the context in which concerns occur, including peer groups, neighbourhoods, transport, online spaces and community locations.

When making referrals or contributing to assessments, we will provide as much relevant information as possible, including information about the child's lived experience, peer relationships, online activity, attendance, community concerns and any known risks to others.

Family Help, community-based Early Help and Team Around the School

We recognise that children and families may require support at any stage and that effective support before statutory intervention can prevent concerns from escalating. In line with Working Together 2026 and KCSIE 2026, this school considers universal services, community-based Early Help and Family Help support as soon as a problem emerges.

All staff are alert to indicators that a child or family may benefit from universal support, community-based Early Help, Family Help, or referral to statutory services. Staff are supported to understand local thresholds, referral processes and pathways, and understand they must share concerns promptly with the DSL or Deputy DSL.

The DSL or Deputy DSL understands the local criteria, thresholds and referral pathways for:

- Family Help, including targeted early help;
- support and services under section 17 Children Act 1989 for children in need;

- section 47 Children Act 1989 where there is reasonable cause to suspect significant harm;
- section 20 Children Act 1989 where accommodation may be required;
- section 31 Children Act 1989 care and supervision orders;
- children affected by exploitation, youth secure estate arrangements, disability or additional needs.

Our Team Around the School (TAS) approach is used to bring together relevant school staff and partner agencies to consider support for children and families and to coordinate plans where additional help is required.

At St. John's CE Primary School, we work in partnership with colleagues and other services including social care, health and Stockport Family to ensure that the needs of children and families are met and to provide early intervention and support when needed. A TAS meeting is held at least termly and school minutes record discussions and actions. When children and families are referenced within TAS meetings, informed consent is obtained from parents/carers as part of the process.

Roles and responsibilities

Governance and leadership

- The governing body has strategic leadership responsibility for safeguarding and must ensure policies, procedures and training are effective and comply with law and statutory guidance.
- The governing body will ensure there is a senior board-level or equivalent lead for safeguarding.
- Governors receive safeguarding and child protection training, including online safety, at induction and through regular updates so they can provide strategic challenge and assurance.
- The headteacher and DSL will ensure safeguarding policies and procedures are understood and followed by all staff.
- Leaders will allocate sufficient time, training, support and resources to enable the DSL and Deputy DSLs to fulfil their responsibilities, including cover arrangements.
- Leaders will ensure pupils are taught about safeguarding, including online safety, through a broad, balanced and age-appropriate curriculum.
- The DSL and leaders will ensure allegations, low-level concerns, whistleblowing, filtering and monitoring, attendance, alternative provision and single central record arrangements are monitored and reviewed and appropriately recorded.
- Leaders and the DSL will monitor the implementation of, and compliance with, this policy and associated procedures, including periodic audits of safeguarding and welfare concern files at least annually.
- We will complete an audit of the school safeguarding arrangements at the frequency specified by the Stockport Safeguarding Children Partnership.
- We will ensure the annual Section 175/157 safeguarding audit is completed, submitted within required timescales, scrutinised by senior leaders and governors, and used to inform safeguarding improvement planning.
- We will provide regular reports to the governing body detailing changes and reviews to policy, training undertaken by staff, the number of children with child protection plans and other relevant safeguarding data.
- The DSL, link governors and senior leaders will take lead responsibility for ensuring that any deficiencies or weaknesses identified in safeguarding arrangements are addressed promptly and effectively.

Designated Safeguarding Lead and Deputy DSLs

The school has appointed a member of the senior leadership team as the Designated Safeguarding Lead. The DSL has overall responsibility for the day-to-day oversight of safeguarding and child protection systems, including online safety. While activities may be delegated, the lead responsibility remains with the DSL and cannot be delegated.

The DSL (or Deputy in their absence) will:

- Act as the central contact point for safeguarding concerns and advice.
- Manage referrals to Family Help, MASSH/children's social care, police, Channel/Prevent and other agencies as required. Allegations that may meet the harm threshold will usually be managed by the headteacher, who will consult or refer to the LADO as appropriate; where the allegation relates to the headteacher, this will be managed by the Chair of Governors.
- Maintain secure, accurate and up-to-date safeguarding records.
- Lead and coordinate safeguarding action, support and risk assessment for individual children.
- Represent the school at multi-agency meetings or ensure appropriate representation.
- Ensure local Stockport/SSCP referral and escalation procedures are followed.
- Ensure appropriate DSL cover during school hours, out-of-hours activities, trips, visits, closures and periods of staff absence.
- Oversee filtering and monitoring arrangements alongside senior leaders and IT leads.
- Promote educational outcomes for children with a social worker, children who are cared for and children with safeguarding or welfare concerns.
- Ensure children's wishes and feelings are considered and recorded appropriately.
- Support staff and promote safeguarding knowledge through induction, training, supervision, updates and reflective practice.

DSL availability and cover arrangements

The DSL or a trained Deputy DSL will be available during school hours for staff to discuss safeguarding concerns. If, in exceptional circumstances, the DSL or Deputy DSL is not available, this must not delay appropriate action. Staff must speak to a member of the senior leadership team and/or seek advice from children's social care/MASSH, police or other relevant safeguarding agencies as appropriate. Any action taken must be shared with the DSL or Deputy DSL as soon as practicably possible.

- The DSL cover rota/arrangements are communicated to all staff.
- A secure safeguarding mailbox or recording system is monitored by appropriate trained staff.
- Educational visits and out-of-hours activities have named safeguarding contacts and escalation routes.
- Emergency closure or remote learning arrangements include clear safeguarding reporting and monitoring processes.

All staff

All staff play a vital role as they are well placed to identify concerns early, provide help for children, promote welfare and prevent concerns from escalating. **All** staff have responsibility to:

- provide a safe environment in which children can learn;
- be aware of indicators of abuse, neglect, exploitation and modern slavery;
- know what to do if a child tells them they are being harmed or at risk;
- be professionally curious and not wait for proof before sharing concerns;
- identify children who may benefit from universal services, community-based Early Help or Family Help;
- understand local referral and escalation procedures;
- act immediately where there are concerns about a child's welfare;
- maintain an appropriate level of confidentiality and never promise secrecy;
- record concerns accurately and promptly using the school/college system;
- reassure children that they are being taken seriously and will be supported and kept safe;
- follow the staff behaviour/code of conduct, paying particular regard to safer working practice guidance, whistleblowing and low-level concerns procedures.

When a child says they are being/have been harmed

We support our staff and volunteers to be confident in responding when a child or young person indicates that they have been harmed or are at risk of harm, including significant harm.

Staff are supported to:

- Listen carefully and calmly.
- Be curious but will not investigate or ask leading questions.
- Reassure the child they have done the right thing by speaking to you.
- Do not promise confidentiality or secrecy.
- Explain that you need to share the information with the DSL so the child can be supported.
- Avoid asking the child to repeat their account to multiple adults.
- Record the **child's words**, context, time, date, location and who was present as soon as possible.
- Share the concern with the DSL or Deputy DSL immediately. If there is immediate danger, seek urgent assistance and follow emergency procedures.

All staff have the right to make a referral to the LADO or Police directly and should do this if, for whatever reason, there are difficulties following the agreed protocol; for example, they are the only adult on the school premises at the time and have concerns about sending a child home.

Guiding principles, the seven R's

Receive

- Listen to what is being said, without displaying shock or disbelief.
- Accept what is said and take it seriously.
- Make a note of what has been said as soon as practicable.

Reassure

- Reassure the pupil, but only so far as is honest and reliable.
- Don't make promises you may not be able to keep e.g. 'I'll stay with you', 'everything will be alright now' or 'I'll keep this confidential'.

- Do reassure; for example, you could say: 'I believe you', 'I am glad you came to me', 'I am sorry this has happened', 'We are going to do something together to get help'.

Respond

- Respond to the pupil only as far as is necessary for you to establish whether or not you need to refer this matter, but do not interrogate for full details.
- Do not ask 'leading' questions, i.e. 'did he touch your private parts?' or 'did she hurt you?' Such questions may invalidate your evidence (and the child's) in any later prosecution in court.
- Do not ask the child why something has happened.
- Do not criticise the alleged perpetrator; the pupil may care about him/her, and reconciliation may be possible at 21.
- Do not ask the pupil to repeat it all for another member of staff. Explain what you have to do next and whom you have to talk to. Reassure the pupil that it will be a senior member of staff.

Report

- Share concerns with the DSL immediately.
- If you are not able to contact your DSL or Deputy DSL, and the child is at risk of immediate harm, contact the LADO or Police, as appropriate, directly.
- If you are dissatisfied with the level of response you receive following your concerns, you should press for re-consideration.

Record

- If possible, make some very brief notes at the time and write them up as soon as possible.
- Keep your original notes on file.
- Record the date, time, place, person/s present and noticeable nonverbal behaviour, and the words used by the child. If the child uses sexual 'pet' words, record the actual words used, rather than translating them into 'proper' words.
- If appropriate, complete a body map to indicate the position of any noticeable bruising.
- Record facts and observable things, rather than your 'interpretations' or 'assumptions'.
- Support the child: listen, reassure, and be available.
- Complete confidentiality is essential. Share your knowledge only with appropriate professional colleagues.
- Get some support for yourself if you need it.

Review (led by DSL or Deputy DSL)

- Has the action taken provided good outcomes for the child?
- Did the procedure work?
- Were any deficiencies or weaknesses identified in the procedure? Have these been remedied? Is further training required?

Online safety, AI and emerging technology

Technology is a significant component in many safeguarding and wellbeing concerns. Children may be at risk online and offline concurrently. Our online safety approach is integrated into safeguarding, curriculum, behaviour, acceptable use and staff training arrangements.

- Online risks include content, contact, conduct and commerce risks.
- Children may be exposed to misinformation, disinformation, fake news and conspiracy theories.
- AI technologies may be misused to create or manipulate images, impersonate others, enable bullying or harassment, produce misleading content or support grooming/exploitation.

- The term nudes and semi-nudes includes photographs, videos, livestreams and images that are digitally altered or wholly generated using artificial intelligence, including deepfakes/deep nudes.
- Any incident involving AI-generated, digitally altered or shared intimate imagery of a child will be treated as a safeguarding concern and managed in line with child protection procedures and national guidance.
- Staff and pupils will be supported to understand responsible use of technology and how to report concerns.
- We promote the Stockport Online Safety Hub with parents/carers and staff. Please follow this link for more information: Online Safety Hub - Stockport LA.

St John's C.E Primary School recognises that in a modern learning environment, use of the Internet, multimedia devices and digital imaging facilities are part of everyday requirements. However, a child/young person's safety will remain the priority of the school.

All staff are aware that any items that have capability for use of the Internet or the creation of digital images (including mobile phones) must be used by children/young people under appropriate supervision and in accordance with the school's acceptable use policy. If any such item that belongs to a member of staff is brought onto the school site, it is the responsibility of that staff member to ensure that these items contain nothing of an inappropriate nature and that they are used in line with school policy (see Responsible Use Policy (RUP) - please make sure you have an RUP that covers both pupils and staff). For ideas and templates visit http://swgfl.org.uk/

Children/young people are not permitted to directly access items that do not belong to the school, without appropriate risk assessments and permission being sought. The school does not currently permit the use of personal devices by pupils.

If there is any suspicion that any multimedia device or computer contains any images or content of an inappropriate nature it will be locked, secured and, the Head Teacher or DSL will be informed immediately and the steps laid out in this guidance and guidance for the sharing of naked images and or When to call the police- guidance for school's may be applied.

Filtering and monitoring

The governing body has responsibility for ensuring appropriate filtering and monitoring systems are in place. The DSL will work with senior leaders, IT staff/providers and governors to ensure systems are effective, proportionate, and **regularly reviewed and tested**.

- Filtering and monitoring arrangements will **be reviewed at least annually** and when there are significant changes to technology, risk or provision.
- Staff will understand their role in reporting filtering or monitoring concerns.
- Monitoring alerts that indicate safeguarding risk will be reviewed and acted upon promptly.
- Filtering and monitoring will not replace professional curiosity, supervision, education and effective safeguarding practice.
- Governors and senior leaders will receive assurance that filtering and monitoring has been tested across school networks, internet-connected devices and relevant locations, including any devices used off-site or through remote access where applicable. Testing, concerns, actions and decisions will be recorded.

Mobile phones, smart technology and personal devices

Mobile phones have a place in settings; especially on outings when they are often the only means of contact available to settings and can be helpful in ensuring children are kept safe.

Visitors are not permitted to use mobile phones or other camera/ internet enabled devices without the express permission of the Headteacher.

Children have signed consent from their parents/ carers giving permission for the child to have a mobile and agreeing that they will stored securely and be switched off or on silent whilst in the setting.

In line with Keeping children safe in education 2026, we have a clear policy on the use of mobile technology in the school.

We will:

- Only use mobile phones appropriately, and ensure staff have a clear understanding of what constitutes misuse and know how to minimise the risk.
- Ensure the use of a mobile phone does not detract from the quality of supervision and care of children.
- Ensure all mobile phone use is open to scrutiny.
- Ensure staff are vigilant and alert to any potential warning signs of the misuse of mobile phones.
- Ensure staff are responsible for their own behaviour regarding the use of mobile phones and understand how to avoid putting themselves into compromising situations, which could be misinterpreted and lead to potential allegations.
- Ensure the use of mobile phones on outings is included as part of the risk assessment, for example, how to keep personal numbers that may be stored on the phone safe and confidential.
- Adhere to the school policy on the recording of images and the use of equipment within the Responsible Use Policy for Staff.

Students and mobile phones In line with government guidance, the school will be mobile phone-free by default throughout the school day. Pupils must not use mobile phones or personal smart technology during the school day unless a specific exception has been authorised by the headteacher for medical, SEND, safeguarding or other exceptional reasons. The school will specify how devices are stored or restricted, how exceptions are managed, how wearable or camera-enabled devices are treated, and how sanctions, confiscation and parental communication are handled.

- Staff, visitors and pupils will be informed of expectations regarding personal devices.
- Personal devices must not be used to record, photograph or contact children unless explicitly permitted by policy and senior leaders.
- Images of children will be taken, stored and shared only in line with consent, data protection and safeguarding procedures.
- Personal tracking devices or wearable technologies that record location, audio, video or other data must be considered through safeguarding, privacy and data protection risk assessment and are not routinely permitted.
- Any suspected misuse of devices will be reported to the DSL and managed as a safeguarding concern where relevant.

Work mobile phones.

To protect children, we will ensure that the work mobile:

- Is only used by allocated people.
- Is protected with a password/ PIN and clearly labelled.
- Is stored securely when not in use.
- Is not used in areas such as toilets, changing rooms, nappy changing areas and sleep areas.
- If used for taking photographs, the images are deleted regularly and are taken in line with prior written parent/carer permission and other relevant policies.

Nudes and semi-nudes, including AI-generated imagery

The school uses the term "nudes and semi-nudes" to describe the creation, sending, receiving or posting of nude or semi-nude images by young people under 18. Images include photographs, videos, livestreams and digitally altered or AI-generated content.

- Staff must report concerns immediately to the DSL or Deputy DSL.
- Staff must not view, copy, print, share, store or forward imagery, except where unavoidable and in line with DSL guidance and national advice.
- Staff must not ask a child to share or download imagery.
- Staff must not delete imagery or ask a child to delete it unless advised by the DSL/police according to guidance.
- Staff will avoid blame or shame for any child involved and will respond in a calm, supportive and safeguarding-focused way.
- The DSL will consider immediate risk, the ages and vulnerabilities of children involved, consent/coercion, whether adults are involved, the role of AI/manipulation, and whether referral to children's social care or police is required.

Mental health and wellbeing

All staff recognise that mental health problems can, in some cases, become safeguarding concerns. This may include self-harm, suicidal ideation, eating concerns, significant distress or indicators that a child has suffered or is at risk of abuse, neglect or exploitation.

- Staff are not expected to diagnose mental health conditions.
- Staff are well placed to observe behaviour, attendance, presentation, relationships and changes over time.
- Where staff have a mental health concern that may also be a safeguarding concern, they must speak to the DSL or Deputy DSL.
- If staff believe a child is in immediate danger, they must follow emergency procedures, including calling 999 or arranging urgent medical help where appropriate.
- Interventions offered by the school should be evidence-informed, safe, proportionate and appropriate to need and phase of education.

Where relevant, we will seek to work with named mental health practitioners as part of a multi-agency response to supporting the mental health and wellbeing of individual children.

It is important to remind staff of the links. The following policies highlight the work the school does on mental health and wellbeing:

- Attendance Policy
- Behaviour Policy
- Managing Medical Needs Policy
- RSE Policy
- SEND Policy
- RUP Policy
- SEMH Policy

Attendance, educational neglect and children missing education

Regular attendance in education is a key safeguarding factor. Absence, particularly when prolonged, repeated, unexplained or combined with other concerns, can be an indicator of abuse, neglect, exploitation, mental health difficulties, unmet SEND needs, family difficulty, or other safeguarding risks. In line with Keeping Children Safe in Education (KCSIE) 2026, our school has robust systems to monitor and address attendance concerns.

Staff will remain vigilant for patterns of poor, irregular or falling attendance, including changes in punctuality, unexplained absence, repeated absence, part-day absence, or emerging disengagement. Where staff notice such concerns, they must alert the DSL, Deputy DSL and/or attendance lead so that the child's circumstances can be considered alongside any wider safeguarding, welfare or support needs.

Persistent and severe absence

- Persistent absence and severe absence will be monitored in line with national and local attendance guidance.
- Staff will seek to understand underlying causes and avoid assumptions.
- Patterns of absence will be considered alongside wider safeguarding information.
- Where support does not improve attendance or risk increases, the DSL will consider escalation through universal services, community-based Early Help, Family Help, MASSH/children's social care or other statutory pathways.

Educational neglect

Educational neglect is the failure of a parent or carer to ensure a child's access to appropriate education. The school will consider whether persistent or severe absence, lack of engagement, repeated failure to support attendance or patterns of unmet need may indicate educational neglect. Where there is reasonable cause to suspect significant harm, a referral will be made to the MASSH.

Children Missing Education

- The school will follow statutory and local procedures when a child is missing from education or their destination is unknown.
- Robust checks will be completed before removing a child from roll.
- The local authority will be notified in accordance with local procedures.
- Where there are safeguarding concerns, the DSL will seek advice from MASSH/children's social care and/or police as appropriate.

Elective Home Education

Where a parent/carer expresses an intention to educate their child at home, the school will respond in line with statutory and Stockport local guidance. Leaders will consider safeguarding information, attendance, SEND, child voice, parental capacity and any multi-agency involvement, and will work collaboratively with parents/carers and relevant professionals.

Elective Home Education documents - Stockport Council

Alternative Provision safeguarding responsibilities

Where a pupil is placed with an Alternative Provision provider, the school retains overall responsibility for safeguarding, attendance, progress and welfare. Alternative Provision must be quality-assured and monitored.

- Explicit written confirmation will be obtained that required safeguarding checks have been completed for adults working with pupils.
- The provider must notify the school of safeguarding risks, incidents, absence and changes in arrangements.
- Attendance and location will be monitored accurately during school hours.
- The placement will be reviewed at least half-termly, and more frequently where risk, attendance, wellbeing or safeguarding concerns require it.
- Regular visits will be undertaken and measures taken to support the child's sense of belonging with school.
- Safeguarding concerns may result in immediate review, suspension or termination of the placement.
- The DSL will ensure relevant safeguarding information is shared with the provider where necessary and proportionate.

Children potentially at greater risk of harm

Any child may benefit from support before statutory intervention. Staff should remain particularly alert to the potential need for additional support for children who:

- have disabilities, certain health conditions or specific additional needs;
- have special educational needs, whether or not they have an Education, Health and Care Plan;
- have a mental health need;
- are young carers, pregnant or parents themselves;
- show early signs of abusive, violent or harmful behaviours;
- are being drawn into anti-social or criminal behaviour, gangs, organised crime or county lines;
- are frequently missing from education, home or care;
- have been repeatedly removed from classrooms, experienced multiple suspensions, are on a part-time timetable, are at risk of permanent exclusion, or are in Alternative Provision or a PRU;
- are at risk of exploitation, modern slavery or trafficking;
- are at risk of radicalisation;
- have a parent/carer in custody or are affected by parental offending;
- live in family circumstances involving drug or alcohol misuse, adult mental health, domestic abuse or other pressures;
- are misusing alcohol or drugs;
- are at risk of honour or faith-based abuse, FGM or forced marriage;
- are privately fostered.

- are living in temporary accommodation, homeless, at risk of homelessness, or affected by housing instability, including where the school receives notification from a housing authority or other partner agency.
- have medical conditions, allergies or essential medication needs where repeated failure to support treatment, medication access, dietary safety or reasonable adjustments may become a safeguarding concern.

Young carers may require additional support where caring responsibilities affect attendance, punctuality, concentration, learning, wellbeing, social development or ability to participate fully in school life. Staff should recognise potential indicators of caring responsibilities and share concerns with the DSL or pastoral lead so that support, assessment and referral routes can be considered.

Children with SEND or disabilities

Staff recognise that additional barriers can exist when identifying abuse, neglect or exploitation in children with SEND or disabilities. These can include assumptions that indicators relate to disability, communication barriers, dependency on adults for care, reduced opportunities to disclose, and increased vulnerability to bullying, coercion or exploitation.

- Concerns will be explored with professional curiosity and not attributed automatically to SEND or disability.
- The child's preferred communication method will be considered.
- The DSL will liaise with the SENCO/named SEND lead as appropriate while maintaining confidentiality.
- Reasonable adjustments will be made so children can report concerns and access support.

Where a child has a medical condition, allergy or requires essential medication, the school will consider whether concerns about repeated missed medication, avoidable exposure to allergens, untreated symptoms, refusal or failure to follow agreed healthcare plans, or lack of reasonable adjustments may indicate neglect or another safeguarding concern. Staff must share concerns with the DSL and relevant medical/SEND leads so that proportionate support, advice or referral can be considered.

Serious violence, weapons and safety planning

Serious violence is a safeguarding concern. It may involve physical assault, carrying, threatening with or using weapons, peer conflict, bullying, exploitation or violence linked to criminal activity. Staff must report concerns about a child carrying, using or expressing intent to carry or use a weapon to the DSL immediately.

- The DSL will assess risk to the individual child and others.
- A safety and support plan will be developed where appropriate.
- Plans may include trusted adult support, supervision arrangements, de-escalation strategies, curriculum/pastoral support, referral to specialist services, police advice and multi-agency planning.
- The school will be alert to times when risk may increase, including immediately after school, transitions, journeys to and from school, exclusions/suspensions and movement in or out of Alternative Provision.
- Children involved in violence may also have been harmed themselves and will be considered through a safeguarding lens.

- Knife Crime and Youth Violence Protocol for Education – school.

Extremism and radicalisation

Children may be susceptible to radicalisation into terrorism. Protecting children from this risk is part of the school's wider safeguarding approach. The school has due regard to the Prevent duty and treats concerns about radicalisation, extremism or terrorism as safeguarding concerns.

Extremism is the vocal or active opposition to fundamental British values, including democracy, the rule of law, individual liberty, and mutual respect and tolerance of those with different faiths and beliefs.

Radicalisation is the process by which a person comes to legitimise support for, or the use of, terrorist violence.

Terrorism includes action or threats designed to influence government or intimidate the public for a political, religious or ideological cause, and which endanger or cause serious violence, serious damage to property, or serious interference with an electronic system.

The school is subject to the Prevent duty under section 26 of the Counter-Terrorism and Security Act 2015 and will have due regard to the need to prevent people from becoming terrorists or supporting terrorism. The Prevent duty is treated as part of the school's wider safeguarding duties. The DSL, Deputy DSLs and relevant senior leaders will be familiar with current Prevent duty guidance and local procedures for making Prevent referrals. Staff should use professional judgement, be alert to changes in children's behaviour or circumstances, and share concerns with the DSL or Deputy DSL without delay.

Staff should be alert to violence fixation, including escalating interest in weapons, attacks, mass harm, extremist material or harmful online content, whether or not this appears linked to a clear ideology. Concerns must be shared with the DSL or Deputy DSL and considered through safeguarding, Prevent, Channel, police and local multi-agency procedures.

Channel is a voluntary, confidential support programme for people who may be susceptible to being drawn into terrorism. Prevent referrals are first assessed by police and may be passed to a multi-agency Channel panel, which will consider whether support is required. A school/college representative may be asked to contribute to the Channel process. Where a child receiving Channel support moves to another school or college, the DSL will consider, in line with information-sharing principles, whether relevant information should be shared in advance to support continuity of safeguarding support.

- We build resilience through a balanced curriculum, critical thinking, online safety and inclusive practice.
- We have filtering and monitoring systems in place, including real-time alerts, and record all follow-up actions and interventions.
- We monitor the use of school premises and external speakers to ensure compatibility with safeguarding duties.
- We work with local safeguarding partners where concerns arise.

School premises and non-school activities

When the school premises are used for non-school activities, leaders will seek assurance that appropriate safeguarding arrangements are in place. Safeguarding clauses will be included in hire agreements and concerns will be reported to relevant agencies, including the local authority and/or LADO, where appropriate. Site safety arrangements include signing visitors in and out, supervision, identity checks, acceptable conduct expectations and emergency procedures.

Where services or activities are provided separately by another organisation, leaders will seek assurance that the provider has appropriate safeguarding and child protection policies, safer recruitment arrangements and procedures for liaising with the school where concerns arise. Safeguarding requirements will be included in hire or transfer-of-control agreements, and failure to comply may lead to termination of the agreement.

The school receives a range of visitors, including parents/carers, contractors, professionals, speakers, performers and others attending events or activities. We will manage visitors proportionately, checking identity and **seeking assurance about appropriate checks** where a visitor attends in a professional capacity. We will not request DBS checks, barred list checks or DBS certificates for children's relatives or other visitors attending one-off events such as sports days. The headteachers will use professional judgement about supervision or escorting arrangements, and leaders will consider the suitability, educational value and age appropriateness of external organisations, speakers or resources before they are used.

Domestic abuse and Operation Encompass

Children can be victims of domestic abuse where they see, hear or experience its effects. Domestic abuse can have a significant impact on health, wellbeing, safety, attendance and learning. Young people can also experience abuse in their own relationships. Where we have concerns we will follow local and national guidance and policies.

The school has a number of preventative/awareness approaches delivered through our PSHE and Well-being Curriculum. In addition, appropriate support/interventions related to domestic abuse are provided through Team Around the School (TAS), Team Around the Child (TAC) and through arrangement with our Inclusion/Wellbeing Leader. Parents/carers are aware of key members of staff (DSL, Safeguarding Governor, Well Being Leader, Well Being Governor, and Inclusion Leader) who are able to support and signpost to support mechanisms regarding any concerns related to abuse / violence in the home.

Operation Encompass

The school participates in Operation Encompass. Operation Encompass is an information-sharing arrangement through which police notify education settings when they have attended a domestic abuse incident where a child may have been affected. This supports education settings to provide timely, informed support.

- The DSL or trained Operation Encompass Key Adult receives and reviews notifications.
- Information is recorded securely and shared only on a need-to-know basis.
- Support is considered in light of the child's needs, behaviour, voice and circumstances.
- Operation Encompass does not replace statutory safeguarding procedures or referrals to children's social care where those are required.
- The school will communicate its participation in Operation Encompass to parents/carers through appropriate local documentation.
- Notifications may be received where a child has been affected by domestic abuse even if they were not physically present. Notifications may include sensitive information about the child's circumstances, voice and context and will be handled sensitively, securely and in line with data protection laws. Operation Encompass will not be used as a substitute for professional judgement, will not replace statutory safeguarding procedures or referrals where a child may be at risk of harm, and notifications will not include information or reference to sexual offences disclosed at the domestic abuse incident. The school will maintain a reliable route for receiving notifications, such as a monitored safeguarding inbox or named Key Adult arrangement.

Honour-based abuse, forced marriage and FGM

Staff are alert to the possibility of honour-based abuse, forced marriage and female genital mutilation. These concerns must be reported to the DSL immediately. Teachers have a specific mandatory reporting duty where

they discover that an act of FGM appears to have been carried out, but all staff **must** act to promote and safeguard the welfare of our students.

As a school we would never attempt to intervene directly; where this is suspected, nor would we speak to parents before sharing our concerns with appropriate agencies.

Reasonable force and restrictive practice

There are limited circumstances where it may be appropriate for staff to use reasonable force to safeguard children. Reasonable force means using no more force than is necessary for the least amount of time in the circumstances. It may include guiding a child to safety, preventing injury, preventing serious damage to property, or preventing serious disruption where there is an immediate safeguarding, safety or welfare risk.

- Any use of reasonable force or restrictive intervention must be lawful, proportionate, necessary, reasonable in the circumstances and for the shortest time possible.
- Staff must consider the child's age, needs, SEND, disability, medical conditions, trauma history, communication needs and any known risk assessment or support plan.
- Reasonable force must never be used as a punishment or to cause pain, humiliation or degradation.
- Where restrictive intervention is used, the incident must be recorded, reviewed and reported in line with the behaviour policy and any local reporting requirements.
- Parents/carers should be informed where appropriate, unless doing so would increase safeguarding risk.
- Leaders will review incidents to identify learning, reduce the likelihood of recurrence and consider whether additional support, reasonable adjustments, behaviour planning or safeguarding action is required.
- This section should be read alongside the behaviour policy, SEND policy, health and safety procedures and any restrictive intervention or positive handling policy used by the school.

Gender-questioning children, social transition and single-sex spaces

The school will respond sensitively, professionally and lawfully where a child, or their parent/carer, raises a request for support relating to gender-questioning or social transition. The school will not initiate action relating to social transition. Individual members of staff must not adopt changes relating to social transition, such as changes to names, pronouns, uniform, records or day-to-day arrangements, unless a school decision-making process has taken place and parents/carers have been involved, unless involving them would create a safeguarding risk.

Staff will take time to understand the child's thoughts and feelings and will be professionally curious about the full range of the child's experiences, including family relationships, peer relationships, bullying, mental health, SEND, neurodiversity, online influences and wider wellbeing.

Any request for support with social transition will be considered carefully and on an individual basis. Social transition will be treated as an active intervention that may have significant implications for the child and for other children. The first consideration will be the best interests and safeguarding of the child and all children affected. The child's wishes and feelings will be listened to and taken seriously, but any decision may not be the same as the child's wishes.

Parents/carers will usually be involved as a matter of priority and their views will be treated with importance. Where involving parents/carers may place the child at greater risk, the DSL will be involved before parents/carers are contacted or decisions are made. Relevant professional advice may be sought, including from the

SENCO/named SEND lead, pastoral staff, health professionals, the local authority, trust, HR or legal advisers where appropriate.

Decisions and rationale will be documented and records will be kept. Arrangements will be reviewed regularly, including where circumstances change, safeguarding concerns emerge, a child is living in stealth, or a child wishes to fully or partially reverse a previous request. The school will keep accurate records, including accurate recording of biological sex where this is recorded, and will ensure relevant staff have appropriate information where needed for safeguarding, safety, privacy, dignity, fair participation or legal compliance.

The school will be a respectful place where bullying is never tolerated. All forms of bullying, harassment or discriminatory behaviour, including bullying related to sex, gender-questioning, perceived difference or any protected characteristic, will be challenged and addressed at the earliest opportunity.

Toilets, changing rooms, showers and PE/sport

- The school will maintain single-sex toilet and changing/shower provision in line with legal requirements and safeguarding guidance.
- Children will not be permitted to use toilets, changing rooms or showers designated for the opposite biological sex.
- Where a gender-questioning child does not wish to use facilities designated for their biological sex, the school will consider whether suitable alternative arrangements can be made, provided that these do not compromise single-sex provision or the safety, comfort, privacy or dignity of the child or any other child.
- Alternative arrangements may include self-contained individual facilities where available or supervised access at an alternative time where appropriate.
- Requests relating to PE or sport will be considered in light of safety, fairness, safeguarding, equality duties, and guidance on support with social transition.
- Records of arrangements will be clear, appropriately communicated and regularly reviewed.
- Any arrangements will be determined on a case-by-case basis, having regard to safeguarding, the best interests of the child, the impact on other children, and the school's statutory obligations.

Safer recruitment and safer working practice

The school pays full regard to KCSIE 2026 and relevant legislation when recruiting staff, volunteers, contractors and others working with or around children. Safer recruitment is part of a wider culture of safer practice.

- Recruitment processes include appropriate identity, DBS, barred list, right to work, qualification, prohibition, section 128, overseas and reference checks as applicable.
- Online checks may be undertaken as part of due diligence in line with KCSIE and recruitment procedures.
- The single central record is maintained and reviewed at least termly by a named senior leader, who in turn provides assurance to the governing board.
- Supply, agency and third-party staff are subject to written confirmation of checks and appropriate induction.
- Staff and volunteers receive safeguarding induction and understand the staff behaviour/code of conduct, which specifically includes safer working practice guidance, acceptable use, online safety, low-level concerns and whistleblowing procedures.
- Adults working in school understand professional boundaries, safe use of technology, and expectations for conduct inside and outside work.

Regulated activity and volunteers

The school will ensure arrangements for volunteers and others undertaking teaching, training, instructing, caring for or supervising children reflect current statutory requirements. Where applicable and in line with KCSIE 2026, the removal of the previous supervision exemption for regulated activity will be reflected in recruitment approaches, DBS/barred list decision-making and volunteer risk assessments. The school will keep written records of volunteer risk assessments, identity checks, induction, supervision arrangements and any barred list or DBS decisions. Existing volunteers, work experience arrangements, contractors, self-employed workers, supply staff and trainee teachers will be reviewed to ensure the correct checks, written confirmations and safeguarding induction are in place. HR and legal advice will be sought where uncertainty exists via our contracted provider.

Allegations, concerns and low-level concerns about adults

The school has processes to manage safeguarding concerns or allegations about staff, including supply staff, trainee teachers, volunteers and contractors. Concerns that may meet the harm threshold will be referred to the headteacher, Chair of Governors where the concern is about the headteacher, and the LADO as appropriate.

Low-level concerns are concerns about an adult working in or on behalf of the school that do not meet the harm threshold but may indicate behaviour inconsistent with the staff behaviour/code of conduct. Low-level concerns must be shared, recorded, reviewed and responded to appropriately to identify patterns and maintain a culture of openness and safety.

- Low-level concerns will be shared confidentially with **the Headteacher**
- The headteacher is the ultimate decision maker for low-level concerns, unless the concern relates to them.
- Concerns about supply staff and contractors will be shared with their employer so patterns can be identified.
- If there is doubt about whether the harm threshold is met, advice will be sought from the LADO or relevant Local Authority safeguarding lead.
- Where a person is dismissed, removed from regulated activity, would have been removed had they not left, or otherwise meets the referral criteria, the school will make a referral to the Disclosure and Barring Service as required.
- Where a teacher is dismissed, ceases to be used, or would have been dismissed for serious misconduct, the school will consider whether referral to the Teaching Regulation Agency is required.
- Suspension will not be an automatic response to an allegation; decisions will be proportionate, risk-assessed, recorded and reviewed. The school will consider welfare support for the child, the adult who is the subject of the allegation and any other children or staff affected.
- Records will be kept securely and in line with HR, data protection and retention requirements.
- At the conclusion of any allegation or low-level concern process, leaders will consider whether there are lessons for safer recruitment, induction, supervision, staff conduct, site management, culture or policy, and will record actions taken.

Low-level concern policy

Whistleblowing and professional challenge

All staff and volunteers should feel able to raise concerns about poor or unsafe practice and potential failures in safeguarding provision. Such concerns will be taken seriously by senior leaders. Where staff feel unable to raise a

concern internally, or feel that genuine concerns are not being addressed, other whistleblowing channels are available, including the NSPCC whistleblowing advice line: Whistleblowing Advice Line | NSPCC.

The school also recognises the importance of professional challenge and escalation where there are disagreements between agencies or where a child's situation is not improving. Staff should speak to the DSL if they believe escalation is required.

Information on escalation procedures is available here: Resolving Professional Differences/Escalation Policy.

Searching, screening and confiscation

Searching, screening and confiscation will be managed in line with the school behaviour policy and DfE guidance. The DSL or Deputy DSL will be informed without delay where a search reveals or suggests a safeguarding risk, involves prohibited items such as weapons, drugs or harmful imagery, or where a child's welfare is otherwise at risk. Any risks will be managed in line with local guidance and with consideration given to all involved.

The headteacher and DSL understand the requirement for an Appropriate Adult where a child is subject to police detention, treatment or questioning under PACE Code C. The headteacher or deputy headteacher, in their absence, will be **immediately alerted** to these circumstances.

Staff learning, induction and training

Safeguarding learning is an essential part of staff development and supports our culture of safeguarding. All new staff, volunteers, agency and third-party staff receive safeguarding induction. Induction includes:

- KCSIE 2026 Part One for all staff, with any role-specific additional information or relevant guidance provided as appropriate;
- any KCSIE Part One overview, school/college summary or quick-reference material used to support understanding, noting that these do not replace reading Part One itself;
- this safeguarding and child protection policy;
- behaviour policy;
- staff behaviour/code of conduct policy – safer working practice;
- child-on-child abuse procedures;
- children absent/missing from education procedures;
- online safety, filtering and monitoring expectations;
- low-level concerns, allegations and whistleblowing procedures;
- categories of abuse;
- What to do if you are worried about a child, or if they share a concern;
- how to record and report concerns, including outside normal DSL availability.

All staff will receive appropriate safeguarding and child protection training at induction, including online safety and an understanding of the school/college's expectations, applicable roles and responsibilities in relation to filtering and monitoring. Training will be regularly updated. In addition, all staff will receive safeguarding and child protection updates, including online safety updates, as required and at least annually, for example through email, e-bulletins, staff meetings, briefings or training sessions, so that they have the knowledge and skills needed to safeguard children effectively. Training records will be maintained and reported to governors. Governors will receive appropriate safeguarding and child protection training, including online safety, at induction and through regular updates.

The DSL and headteacher will provide an annual report to the Governing Board detailing safeguarding training undertaken by all staff and will maintain an up-to-date record of who has been trained

Other related policies

This policy is the overarching safeguarding policy and should be read alongside linked policies including:

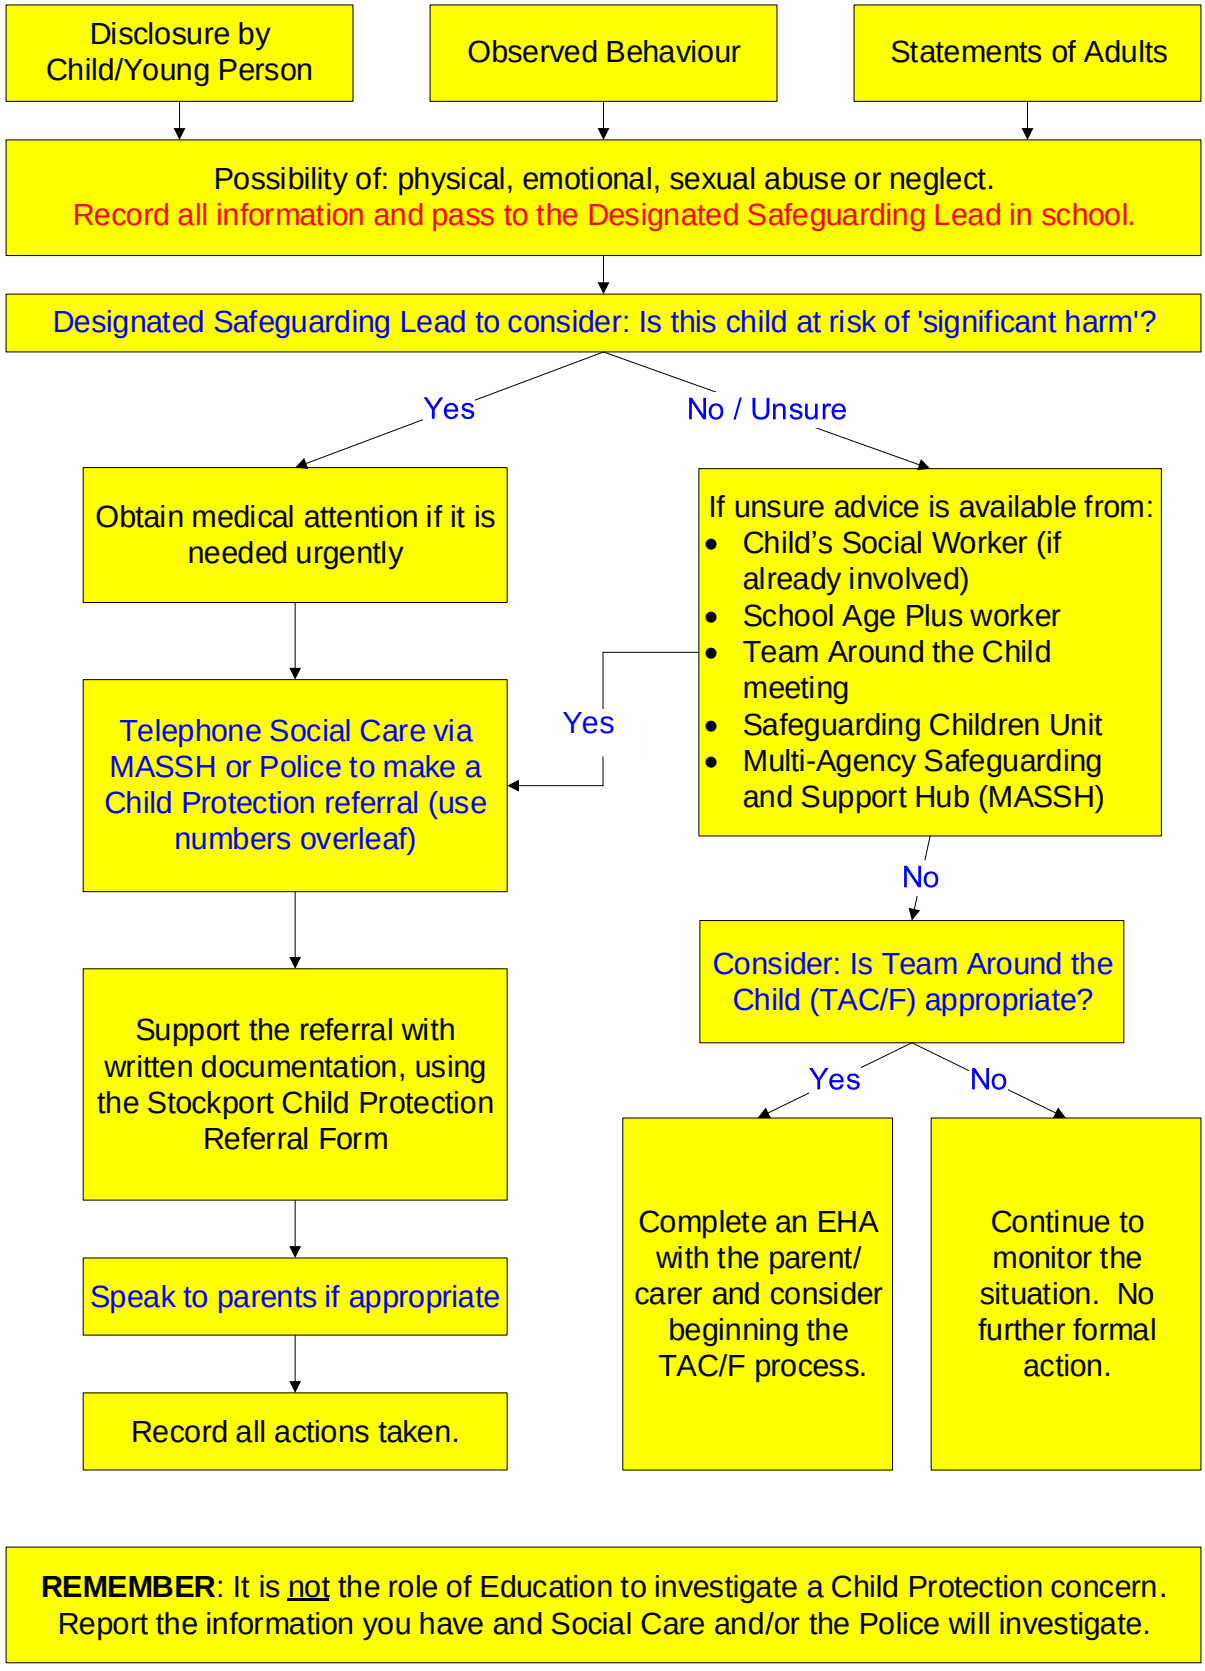

- Attendance policy
- Data Protection
- Staff Handbook

Supporting our culture – Recognise, Respond, Report, Record

Step	What staff should do
Recognise	Be alert to signs of abuse, neglect, exploitation, harm, vulnerability, attendance concerns, peer abuse, online harm or changes in behaviour.
Respond	Take concerns seriously, listen, reassure, avoid leading questions and do not investigate.

Step	What staff should do
Report	Share concerns immediately with the DSL or Deputy DSL. If unavailable and risk is urgent, seek senior leader and external safeguarding advice.
Record	Make a clear, factual, timely record using the school/college safeguarding system. Include the child's words where relevant and the rationale for decisions.

Concern about a child – action chart

REMEMBER: It is <u>not</u> the role of Education to investigate a Child Protection concern. Report the information you have and Social Care and/or the Police will investigate.

Possible indicators of abuse, neglect and exploitation

Indicators are provided as a guide only. Concerns and context should be discussed with the DSL. The presence of an indicator does not prove abuse; absence of indicators does not mean a child is safe.

If you notice something, record it and report it.

Area	Possible indicators
Neglect	Poor presentation, hunger, untreated medical/dental needs, persistent tiredness, lack of basic care, poor attendance or repeated unmet needs.
Emotional harm	Developmental changes, anxiety, withdrawal, fearfulness, low self-esteem, self-deprecation, sudden behaviour changes or running away.
Physical harm	Unexplained injuries, injuries inconsistent with explanations, repeated injuries, injuries in unusual places, or injuries in babies/non-mobile children.
Online harm	Secretive device use, distress after online activity, new unexplained contacts/gifts, exposure to harmful content, coercion, harassment or sharing of images.
Exploitation	Missing episodes, unexplained money/gifts, new older peers/adults, travel patterns, changes in behaviour, debt, fear, coercion or involvement in criminal activity.

Cross-cutting indicator

Across any category, staff should be alert to changes in a child's behaviour, language, aggression/dysregulation, withdrawal or appearance.

Changes may be sudden or gradual and should be considered alongside the child's context, lived experience, attendance, relationships and previous concerns.

Serious violence	Weapon-related language, threats, fear of peers, injuries, gang association, changes in travel routes or possession of concerning items.
Radicalisation	Changes in views, language, behaviour, friendship groups or online activity; increased secrecy about internet use; fixation on extremist, violent or conspiracy-based content; isolation from family/peers; intolerance of others; or comments suggesting support for violence, hatred or extremist ideology. Concerns should be shared with the DSL and considered in line with Prevent and local Channel processes.
Mental health	Significant changes in mood/behaviour, sleep difficulty, withdrawal, self-harm indicators, suicidal ideation or significant distress.

The Designated Officer/LADO

A LADO consultation/referral should be considered where information suggests an adult working with children may have behaved in a way that harmed a child or may have harmed a child; possibly committed a criminal offence against or related to a child; behaved towards a child or children in a way that indicates they may pose a risk of harm; or behaved in a way that indicates they may not be suitable to work with children.

Key responsibilities for staff

All staff and volunteers have a responsibility to recognise and respond appropriately to concerns about adults who work or volunteer with children. Staff should:

- Be aware of the role of the Local Authority Designated Officer (LADO) and the types of concerns that require consultation or referral.
- Report immediately to the Headteacher, Principal, DSL or an appropriate senior leader if they become aware of information suggesting that an adult working with children may have:
    - harmed, or may have harmed, a child;
    - committed a possible criminal offence against or related to a child;
    - behaved in a way that suggests they may pose a risk of harm to children; or
    - behaved in a way that indicates they may not be suitable to work with children.
- Understand that concerns may relate to behaviour in the workplace, the community, or an individual's home or personal life where there may be an impact on children's safety.
- Maintain confidentiality and avoid discussing allegations with colleagues who do not need to know. Good safeguarding practice includes limiting information sharing to those directly involved in managing the concern.
- Record concerns factually, accurately and promptly, avoiding opinion or speculation.

- Not investigate allegations themselves or seek further evidence from the child, adult or witnesses. The matter should be referred through the appropriate management and safeguarding processes.
- Cooperate fully with any internal, external or multi-agency processes arising from a LADO consultation or referral.
- Understand that making a LADO referral should never delay immediate action to safeguard a child. Where there is an immediate risk of harm, emergency services and safeguarding procedures must be followed without delay.

Staff must remember

If in doubt, report the concern. Staff are not expected to decide whether an allegation meets the LADO threshold; they are expected to share concerns promptly with senior leaders so that appropriate advice or consultation can be sought or a referral can be made.

For more information and details of how to make a referral, visit: Contacting the LADO (Local Authority Designated Officer) - Stockport Council.

The role of the Designated Safeguarding Lead

The DSL role includes managing referrals, working with others, information sharing and managing child protection files, raising awareness, training and knowledge, supporting staff, understanding children's views, holding and sharing information, overseeing online safety and filtering/monitoring, ensuring DSL cover, and contributing to strategic safeguarding governance. The DSL and Deputy DSL each have a job description which appropriately defines their role in school. This is held in their personnel file. As part of their duties, they will:

- Manage referrals to Family Help, MASSH/children's social care, police, Channel/Prevent and other agencies, and support the headteacher/principal with LADO processes where appropriate.
- Help staff to understand local criteria for action and thresholds.
- Ensure child protection files are accurate, secure and transferred within statutory timescales (5 days).
- Ensure safeguarding policies are known, understood and used appropriately.
- Support staff through advice, training, supervision and reflective practice.
- Keep abreast of local and national developments and ensure updates are disseminated.
- Ensure Operation Encompass notifications are received, recorded and acted upon.
- Ensure arrangements for DSL cover are robust and communicated.
- Ensure concerns about children in AP, part-time timetables, suspensions/exclusions or attendance risk are monitored.

Our safeguarding commitment

St John's C.E is committed to safeguarding and promoting the welfare of all children and young people. We want every child to feel safe, listened to, respected and supported. Safeguarding is everybody's responsibility, and all adults in our school have a role in helping children to be safe and well.

We will take concerns seriously, respond promptly and work with children, families and safeguarding partners to help keep children safe. We are alert to signs of abuse, neglect, exploitation, online harm, child-on-child abuse, poor or falling attendance, and other concerns that may affect a child's welfare.

Children can share worries or concerns in different ways. We will listen carefully, avoid judgement, record concerns accurately and take appropriate action. We use language that avoids unnecessary labelling and recognises both children who have been harmed and children who may have caused harm as children who may need support, boundaries and safeguarding oversight.

If you are worried about a child, please speak to a member of our safeguarding team as soon as possible. You do not need to be certain that a child is being harmed to raise a concern.

Our Head Designated Safeguarding Lead is:
Mr Andrew Clerc, Headteacher

Our Deputy Designated Safeguarding Lead is:
Miss Emma Smith, Deputy Headteacher

Our Safeguarding Governor is:
Jenny Curzon

safeguarding children in Stockport

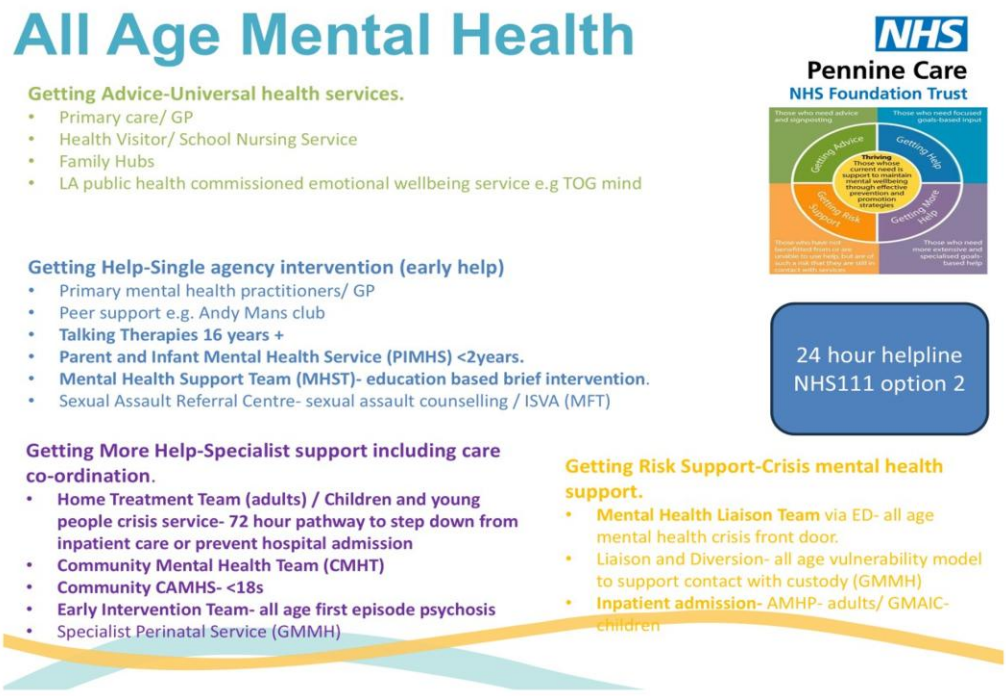

If a child is in immediate danger, call 999

If the DSL or Deputy DSL is not available and urgent safeguarding action is needed, anyone can contact children's social care, MASSH, the police or emergency services directly. Any action taken should be recorded and shared with the DSL or Deputy DSL as soon as possible.

Our full safeguarding and child protection policy is available on our website and from the school/college office. We review our safeguarding arrangements regularly and work in line with KCSIE 2026, local Stockport safeguarding procedures and multi-agency guidance.

Additional Advice and Support Resources

Below provides a selection of national guidance, statutory documents, specialist organisations, and practical resources that may support schools in meeting their safeguarding responsibilities. The list is drawn from the resources referenced within *Keeping Children Safe in Education 2026* and is intended as a helpful starting point rather than a comprehensive directory. Schools should ensure they access the most current versions of guidance and seek local advice where appropriate.

The resources listed below were current at the time of publication. Readers should refer to the relevant organisation's website for the most up-to-date guidance, resources and contact information.

Additional DfE guidance and useful documents

The following Department for Education documents should be read alongside this policy and the school local procedures where relevant.

Area	DfE guidance/documentation	Use alongside
Searching, screening and confiscation	Searching, screening and confiscation: advice for schools Searching, screening and confiscation in schools - GOV.UK	Behaviour policy, safeguarding procedures, mobile phone/device policy, prohibited items procedures, recording/reporting processes and police liaison arrangements where relevant.
Attendance	Working together to improve school attendance Working together to improve school attendance - GOV.UK	Attendance policy, safeguarding procedures, early help/family help pathways and local authority attendance arrangements.
Suspensions and permanent exclusions	Suspension and permanent exclusion from maintained schools, academies and pupil referral units in England School suspensions and permanent exclusions - GOV.UK	Behaviour policy, SEND policy, safeguarding risk assessment, reintegration planning and alternative provision arrangements.
Children missing education	Children missing education: statutory guidance for local authorities and schools	Attendance procedures, admissions and removal from roll processes, safeguarding records and local CME referral routes.

	Children missing education: statutory guidance for local authorities and schools - GOV.UK	
Restrictive interventions, physical intervention and reasonable force	Restrictive interventions, including the use of reasonable force, in schools Use of reasonable force and other restrictive interventions guidance	Behaviour policy, positive handling/restrictive intervention policy, SEND plans, risk assessments, recording/reporting processes and staff training records.

Right to Ask and Right to Know – DVDS and CSODS

This appendix briefly describes two police disclosure schemes referenced in government guidance: the **Domestic Violence Disclosure Scheme (DVDS)**, often known as **Clare's Law**, and the **Child Sex Offender Disclosure Scheme (CSODS)**, often known as **Sarah's Law**. Both schemes provide routes through which the police may consider sharing information to help protect an adult or child from harm. Disclosure is not automatic and remains a police decision, made in line with the relevant government guidance and legal tests.

Domestic Violence Disclosure Scheme (DVDS) — Clare's Law

The **DVDS** enables the police to consider disclosing information about a current or former partner's previous abusive or violent behaviour where this may help protect a person from domestic abuse. The scheme has two routes:

- **Right to Ask:** an individual, or a relevant third party, can ask the police to check whether a current or former partner has an abusive or violent past.
- **Right to Know:** the police may proactively consider disclosure where they receive information suggesting a person may be at risk from a current or former partner.

  See: Domestic violence disclosure scheme 'Clare's Law'

  Request information under Clare's Law: Make a Domestic Violence Disclosure Scheme (DVDS) application | Greater Manchester Police

The distinction is how the process begins: **Right to Ask** is application-led; **Right to Know** is police-initiated. Any disclosure must be lawful, necessary and proportionate.

Child Sex Offender Disclosure Scheme (CSODS) — Sarah's Law

The **CSODS** allows a person to ask the police whether someone who has contact with a specific child has a record for child sexual offences or may pose a risk to that child. If the police decide that disclosure is necessary to protect a child, information will usually be shared with the person best placed to safeguard the child, which may not be the person who made the application.

See:Child sex offender disclosure scheme: police guidance (accessible) - GOV.UK
Sarah's Law (Child Sex Offender Disclosure Scheme) | Greater Manchester Police
These schemes do not replace normal safeguarding procedures. Where there is immediate risk, staff must call **999**. Where there are safeguarding concerns about a child, staff must report these to the **DSL or Deputy DSL** without delay and follow local referral procedures.
