Dear Parents and Carers,

We understand how quickly children grow and that school uniforms are often outgrown long before they are worn out. With this in mind, we would be very grateful if, while organising uniform for next year, you could check whether you have any items that your child no longer needs, yet are still in good condition.

As part of our **School Sustainability Day**, we are asking families to donate any clean, good-quality preloved school uniform that their children have outgrown. These donations will help support our commitment to reducing waste, reusing resources, and encouraging environmentally friendly habits within our school community.

By donating preloved uniform, families can:

- Help reduce textile waste going to landfill
- Support other families by providing additional uniform options
- Promote the importance of reusing and recycling to our children
- Encourage a sense of community and shared responsibility

This initiative also gives children a valuable opportunity to learn about sustainability in a practical and meaningful way. Through simple actions such as reusing clothing, we can all work together to care for our environment and make a positive difference for the future.

As a result, we will then be holding a **Free Uniform Event** after school on **Wednesday 24th June**. Parents and carers will be warmly invited to come along and take any uniform items that fit their child - free of charge. Further details about times and the location within school will follow shortly.

Please send any donated items into school with your child and pass on via their class teacher. Uniform donations can be: school jumpers, cardigans, trousers, skirts, P.E shorts, P.E t-shirts and pairs of pumps or trainers etc. We kindly ask that all items are clean, in good condition and have any name labels removed or covered (to avoid them being returned to your child).

Thank you so much for your kindness, generosity and support. We truly appreciate any contributions you are able to make.

With best wishes,

Mrs Capel

Geography Lead
