

Cherry Class are going to be learning all about hot and cold places. They will be learning some vocabulary such as; equator, continents, south pole/north pole.

The children are to research a country and explain if it is a hot or cold place and if it is in the north or south pole.

The children can present this however they like!

Due: **Monday 27th March 2023**

Some ideas:

- What would you pack?
- What animals live there?
- How do animals adapt to their habitat (e.g. Polar bears have white skin because they can camouflage into the snow and ice).
- Which continent is it located in?
- Is it located in the north or south pole?
- Is there any famous landmarks (e.g. Eiffel Tower)
- What food do they eat there?
