

Cherry Class - Homework - Summer 1

Cherry class are going to be looking at deforestation. For their homework I would like them to research a place where deforestation occurs.

The children need to find these things and create a POSTER.

1. Place (location to the country, continent and near the equator or south/north)
2. Why are they causing deforestation?
3. Who does it affect?
4. Do they agree or disagree with deforestation?
