Dear Parents/ Carers,

Though we are still early in the academic year, we encourage Y11 students to prepare for mocks, coursework and GCSE exams by working 'little and often'. This helps students to feel more in control and less stressed. From Monday 14th September, therefore, we will be starting our programme of Y11 revision / coursework classes in our 2:30- 3:30 enrichment slot. The timetable for Autumn term is attached to this communication.

Our revision / coursework programme provides students with the opportunity to do an extra hour of structured learning from Monday to Thursday under the guidance of their usual subject teacher, who can help students to overcome any challenges they might face with the topic matter.

Unless specified, all students are welcome to attend any session they choose and as many sessions as they would like. Please note that attendance at revision / coursework classes is optional. We understand that not all students will feel able to attend. Students will always receive the very best support in lessons regardless and all year 11 students this year benefit from an independent study lesson as part of their weekly timetable.

If your child uses local authority transport to get home from school and this would make it difficult for them to attend between 2:30 and 3:30, please contact the school office to let us know. We will explore ways in which we can help.

Thank you, as ever, for your support.

Yours Faithfully

Vicki Cooney
Assistant Headteacher (Curriculum)
