During their time at our school pupils will get the opportunity to explore skills such as drawing, painting, textiles, ceramics 3D modelling.

Where possible, we look for opportunities to work with artists. Previous initiatives we've been involved in include local arts festivals such as *Our Biennale*, *Woven Festival*, *Holmfirth Arts Festival*, among others.

We also work with national partners and are currently working with Art Council England.

We deliver the National Curriculum whilst also developing children's creative curiosity.

Smart phones and WhatsApp

In recent years, we have seen an enormous increase in the number of issues brought into school as a direct result of the use of mobile phones and messaging apps, such as Snapchat and WhatsApp. This has had a detrimental effect on the emotional and mental health of many of our children; we have seen a rise in negative behaviours and this of course impacts upon teaching and learning. Members of staff have seen, and had to deal with incidents which include:

- Verbal abuse over WhatsApp and Snapchat including extreme swearing, sexualised language and racism

- Children adding older siblings, friends to groups without others' consent sometimes resulting in name calling, swearing at the highest level, racism, threatening language, extreme sexual language

- The sending of innocuous memes to individuals and groups which have been misunderstood

- Children writing messages and then removing them and denying their existence

- Children spreading hearsay, rumours that are partly true or secrets that have been shared privately on WhatsApp

Some of the above incidents have resulted in:

- Children not wanting to come to school due to being scared, worried (Emotion based school avoidance)
- Children sharing with staff that they feel a pressure to respond to messages or be part of a group
- Children being made fun of because they don't have a phone, an app or a particular game
- Children being tempted to bring their phones to school (without permission) or using their phones in school creating safeguarding risks
- Arguments and fallouts being transferred into school, sometimes resulting in fallouts, confrontations, further cross words and breaking of long standing friendship groups
- Parents messaging each other and falling out
- Parents seeking advice on how to sort out phone arguments or fallouts or asking staff to resolve problems
- Valuable teaching and learning time lost whilst SLT, teachers and support staff address problems from outside school time
- The involvement of the police and on rare occasions, the involvement of social services

Children and social media.

What are the internet safety ABCs?

Activate parental controls

Use the controls and tools available from technology providers and the platform you use to help with security settings. Block inappropriate content and prevent access from strangers.

Balance screen time

Agree responsibilities for your children's screen time, taking education and social contact into account. Encourage active time when kids are on and consider setting limits for focused time spent online each day.

Check and chat

Check which apps your children use and how they interact especially the social networks and chat features. Have online safety and what they might need to know and what to do. Regularly check in to discuss any risks and how to deal with them.

Thank you for coming!
