

How Germs Are Spread

Science Experiment

Method

1. Put a drop of lotion on your hands and rub them together to spread the lotion out evenly.
2. With your hands over newspaper, ask your partner to put a pinch of eco-friendly glitter in the palm of one of your hands.
3. With your hands still over the newspaper, make a fist with the hand that has eco-friendly glitter on it, then spread your fingers out. What do you see?
4. Now press the palms of your hands together and pull them apart. What do you notice about your hands?
5. Touch your partner's hand. Now do you see anything on it?
6. Get a paper towel and use it to wipe your hands clean of all the eco-friendly glitter. Is it working?
7. After using the paper towel, try using soap and water to wash your hands. Did the eco-friendly glitter come off?

You will need:

Hand lotion

Eco-friendly Glitter

Sink or large bucket

Newspaper

Paper towels

Soap

Water
