

Spring Term 1: Homework Project

The Wonderful World of Animals.

Linking to our science unit this half term, your child is **invited** to research an animal of their choice and present their animal to the class. They can let their creative spirit free and make and present their project in any way they wish! You could use the materials that you have at home to make one of the following:

Poster 	Puffer Fish Habitat 	Penguin Fact File 
---	---	--

I look forward to seeing your wonderful projects on **Monday 9th February**.

Or you could create your own super idea, as long as it is **related** to the topic.
