

Year 5

Summer Term 1 Homework Project

The project this half term aims to provide opportunities for your child to learn more about the area in which they live.

Learning may focus on your local area, key landmarks and links to your city. It is time to get creative year 5.

I would like you to use materials that you have at home to make one of the following:

- 1) Make a model of a local landmark. **Have a look to the left to see just a few of the amazing models we have had produced in the past.**
- 2) Create a map of their neighbourhood.
- 3) Research the history and development of the area.

Or create your own idea as long as it is related to our local area.

I look forward to seeing your amazing projects by Monday 18th May 2026.
