

Year 1

Summer 2 Homework Project

The children are invited to create a suitable habitat for an animal of their choice to live in. Our theme is based on our science topic. I have included some ideas below.

Make a model of a habitat.

Create a poster.

Design an information booklet.

I look forward to seeing your lovely projects on **Monday 13th July.**

You could create your own super idea. Just make sure it is **related** to the topic.
