Year 4

Autumn Term Two Homework Project

What are the features of a river?

It is time to get creative year 4. I would like you to use materials that you have at home to make one of the following:

1. Make a model/drawing of a river, labelling all of the features.

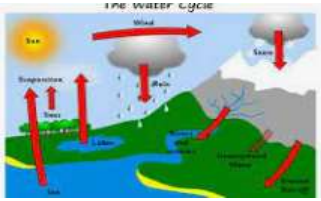

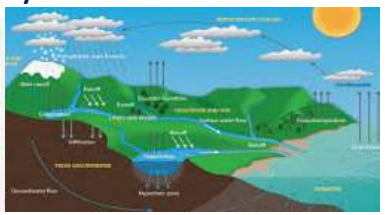

Or create your own idea as long as it is related to rivers.

2. Create a labelled poster of the Water Cycle.

3. A poster/ drawing of a map labelling all of the local rivers you know!

You have until Friday 11th December.
