Year 2
Autumn Term Two Homework Project
Suitable Materials

It is time to get creative year 2. I would like you to design and make a Christmas decoration thinking about the materials used and making sure that they are suitable for the job.

1. Make a Christmas tree out of lollipop sticks, cardboard tubes or paper and decorate with gems and buttons etc.

2. Design a hanging decoration for a Christmas tree and make it out of cardboard, lolly sticks, felt, wood etc.

3. Create a standing Christmas decoration and make it out of modelling clay, wood, cork etc.

Or create your own idea as long as it is related to Christmas.

I look forward to seeing your amazing projects by **Friday 4th December.** This is to enable me to display them in the classroom to add to the festive feel of Year 2.
