ENGLISH:
Visit the library or access Julia Donaldson's books on YouTube. Read/listen to some that you are interested in. Pick your favourite character from one of her stories, draw them and write three describing words for your teacher to guess who they are.

SCIENCE:
Material hunt! Can you find these materials around your house: wood, plastic, metal, glass, fabric and paper. Can you sort them in different ways e.g. by its material or by how it feels (soft, hard, smooth, rough). Why not have fun and see what happens when water lands on different materials e.g. paper, plastic, fabric. Does it soak the water or does it stay on top ? We look forward to hearing!

White Rose Maths

MATHS:
Use the ***'White Rose 1 minute maths app'*** to practise your subitising.

Art:
Look out of your window or step outside with an adult. Can you spot: a tree, cloud, flower/plant, hill or roof. Which line would you use to draw each one? Can you then create your own landscape art piece using at least three types of lines?
